

CITY CENTRE ZONE

Introduction

The City Centre Zone is applied to Timaru's central city area and is the key commercial and civic centre for the District and wider South Canterbury Sub-Region. It is the largest commercial area in the District and provides for a diverse range of commercial activities, retail activities, hospitality, entertainment and residential activities, as well as community facilities.

With the relatively recent dispersal of commercial activities out of the City Centre Zone, high vacancy rates, changing retail behaviour and the challenges of earthquake prone buildings, there is a need to enable and focus the District's new retail, commercial and residential development in the City Centre Zone. This will help ensure its continued viability and primacy as the District's key commercial centre.

There is also a need to maintain and improve the quality of the City Centre Zones streetscapes to ensure a high-quality urban environment. This will help improve the experience of people visiting the city centre and in turn improve the quality of retailing and make it a desirable place to live and work. This may include provision of public open space within the Zone.¹

The City Centre Zone also contains a range of scheduled historic heritage items and historic heritage areas identified in the Historical Heritage Chapter, which gives this Zone a distinctive identity and sense of place. Accordingly, the provisions within this chapter seek to enable new development in the City Centre Zone, but ensure it is sympathetic to the historic heritage character of the area and provides a high-quality pedestrian-focused streetscape.

~~PREC2 – Southern Centre Precinct provides more of a transition into the Mixed Use Zone, with less emphasis on provision of ground floor retail and more opportunity for a mix of development, including live and work options, where it still maintains the streetscape².~~

Objectives

CCZ-O1	The purpose of the City Centre Zone

CCZ-P4 Streetscape and character

Maintain or enhance the values associated with scheduled historic heritage items and historic heritage areas and the amenity values of high-quality streetscapes, by requiring:

1. a verandah in key pedestrian areas that is designed to maintain or enhance the character of the street and provide a pleasant pedestrian-focused environment; and
2. buildings to generally be built up to road boundaries; and
3. buildings to have an active street frontage at ground floor level (~~excluding the PREG2 – Southern Centre Precinct~~)⁸ to reflect the retail nature and focus of this area; and
4. that except where attractive and usable areas of public open space are proposed,⁹ demolition of existing buildings and the erection of new buildings minimises gaps in the streetscape; and

- ~~4.~~ they are consistent with the purpose, character and qualities of the Zone; and
2. their effects are comparable with those that would arise from a permitted activity; and
3. the intensity and scale of the activity does not compromise activities that are enabled within the City Centre Zone.
