SITES AND AREAS OF SIGNIFICANCE TO MĀORI

Introduction

The hapū who hold mana whenua in the ~~Timaru~~ District are Kāti Huirapa. The rohe of Kāti Huirapa extends over the area from the Rakaia River in the north to the Waitaki River in the south. The Papatipu Rūnaka that represents Kāti Huirapa is Te Rūnanga o Arowhenua.

As part of fulfilling its obligations under sections 6(e), 6(f), 7(a) and 8 of the RMA, the Council has developed this chapter (and provisions in other chapters) together with rūnaka for the purpose of managing activities that have potential adverse effects on the values of sites and areas that are significant to Kāti Huirapa (SASM).

Where an activity is proposed within a SASM which requires resource consent under another chapter in the District Plan, the objectives and policies in this chapter may also be relevant to consideration of that activity. There are also rules in other chapters, including the Natural Character, Natural Features and Landscapes, Coastal Environment and Earthworks chapters which manage activities that occur in SASMs. This SASM chapter should therefore be read alongside other sections of the District Plan which also consider the effects on SASMs.¹

Kāti Huirapa worked and travelled extensively across South Canterbury and, as a result, they have historical and cultural connections with land and waterways throughout the ~~Timaru~~ District. To appropriately reflect the depth and breadth of their relationship with the ~~District~~, the approach taken is to firstly identify areas of association, referred to as 'wāhi tūpuna'. This term describes an area with significant associations to cultural traditions, history or identity. Typically, wāhi tūpuna encompass multiple related sites with connections to cultural beliefs, values and uses.

Some smaller areas have been identified because they have highly significant values that Kāti Huirapa consider require special protection. These are categorised as:

- 1. Wāhi taoka — places that are treasured due to their high intrinsic values and their role in maintaining a balanced and robust ecosystem, sustaining quality of life and providing for the needs of present and future generations. Examples include repo raupō, wai puna and mahika kai; and/or
- 2. Wāhi tapu - sacred sites or areas held in reverence according to whakapapa. They may be associated with tākata whenua creation stories, particular events or ceremonies, or valued resources, and include sites such as urupā, pā, Kā tuhituhi o neherā and tauraka waka.

Significant ~~waterways~~ waterbodies² and their margins are also separately identified and are similarly categorised as wai taoka or wai tapu.

The sites and areas identified as being significant to Māori have been grouped in the following categories: wāhi tūpuna, wāhi taoka, wai taoka, wāhi tapu and wai tapu. More detail on each of these is found in MW2.1.7 and MW2.1.9.³

In parallel with the process of identifying SASM significant sites and areas, threats to the values of the sites and areas from a range of land use activities have been considered. Based on this, the approach

¹ Clause 10(2)(b) relating to TRoNT [185.1, 185.3, 185.7], Westgarth et al [200.7]

² Schedule 1, cl16(2)

³ Panel Decision Report, Part 6, Section 3.3

to the management of activities agreed with Kāti Huirapa is a layered approach with the following characteristics:

1. identification of broad wāhi tūpuna areas within which provisions are used to identify activities that pose particularly serious threats to values and make them subject to a different consent threshold or a more onerous activity status in these areas, or to trigger consultation with mana whenua when resource consent is already needed for some other reason; and
2. identification of particularly important or vulnerable areas as wāhi tapu, wāhi taoka, wai tapu and/or wai taoka where resource consent is needed for a range of activities that could adversely affect cultural values of these areas; and
3. across the District as a whole, policies and matters of discretion provide for consideration of effects on cultural values, particularly when consent is required for key activities with the potential to impact on cultural values, and there are also enabling provisions for customary harvest or other cultural practices of benefit to rūnaka.

~~With respect to access to SASM sites and areas of significance, it should be noted that there is no general right of public access across private land, and landowner consent must be obtained to access any private properties.^{4 5}~~

Note: Wai t-Taoka overlay consists of an area overlay and a line overlay.

Objectives	
SASM-O1	Decision making
Kāti Huirapa are actively involved in decision making that affects the values of the identified <u>SASM Sites and Areas of Significance to Kāti Huirapa</u> .	
SASM-O2	Access and use
Kāti Huirapa's are able to⁶ Access to, maintain and use of, resources and areas of cultural value by Kāti Huirapa, within identified <u>SASM Sites and Areas of Significance to Kāti Huirapa</u>, for customary use and cultural purposes,⁷ is maintained and, where appropriate, enhanced⁸.	
SASM-O3	Protection of Sites and Areas of Significance to Kāti Huirapa
The values of identified <u>SASM areas and sites of significance to Kāti Huirapa</u> are recognised and protected from inappropriate subdivision, use and development.	

Policies	
SASM-P1	Involvement of Kāti Huirapa in resource management decisions
Work with Kāti Huirapa to identify and list <u>SASM Sites and Areas of Significance to Kāti Huirapa</u> in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa, and recognise and provide for the exercise of rangkitirataka ⁹ by Kāti Huirapa in decisions made in relation to these sites and areas.	
SASM-P2	Consultation and engagement with Kāti Huirapa

⁴ ~~Federated Farmers [182.82, 182.95] – Evidence of Rachel Thomas and Greg Anderson, paras 22-24~~

⁵ ~~Panel Decision Report, Part 6, Section 3.3.2~~

⁶ Stack, D [50.4], Digby, M E [122.1], OWL [181.58], Federated Farmers [182.82], Westgarth et al [200.2], Te Tumu Pareora [240.6], Jeaffreson, D and A [244.2]

⁷ Clause 10(2)(b) relating to Te Rūnanga o Ngāi Tahu [185.95]

⁸ Stack, D [50.4], Digby, M E [122.1], OWL [181.58], Federated Farmers [182.82], Westgarth et al [200.2], Te Tumu Pareora [240.6], Jeaffreson, D and A [244.2]

⁹ Clause 16(2)

Encourage and facilitate consultation and engagement between landowners/and applicants with and Kāti Huirapa to:

1. facilitate a better understanding of the values of the SASM sites and areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa and the potential impact of activities on the site or area; and¹⁰
2. recognise that consultation prior to applying for consent and/or undertaking activities within or adjacent to¹¹ the identified SASM sites and areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa, as being is the most appropriate way to obtain understanding of the potential impact of any activity on the site or area; and
3. ensure that where an activity requiring resource consent is proposed within any SASM sites and areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa, there is engagement with Te Rūnanga o Arowhenua to understand the effects of the activity on the identified values of the site or area.¹²

SASM-P3 Use of sites and areas for cultural practices

Enable Kāti Huirapa to undertake customary harvest and other cultural practices in identified SASM sites and areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa, in accordance with tikaka.

SASM-P4 Cultural access

Maintain existing access, and encourage landowners and applicants to explore opportunities and methods to enhance access, for Kāti Huirapa to the identified SASM sites and areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa for customary use and cultural purposes.¹³

SASM-P5 Protection of values of Sites and Areas of Significance to Kāti Huirapa

Where an activity is proposed within any wāhi taoka, wāhi tapu, wai taoka or wai tapu overlay¹⁴ Protect the identified values of the sites and areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa, protect the identified values of the site or area, through:

1. requiring adherence to¹⁵ an the Accidental Discovery Protocol set out in Appendix 4 accidental discovery protocol for any earthworks¹⁶; and
2. avoiding adverse effects on identified values¹⁷ which would compromise the¹⁸:
 - 1-a. retention of connections to whakapapa, history and cultural tradition; and
 - 2-b. protection of mauri and intangible values; and
3. maintenance or enhancement of access by whānau for customary use and cultural purposes; and¹⁹
 - 4-c. protection of site integrity; and
 - 5-d. ensuring sustainability of ecosystems supporting taoka species and mahika kai resources; unless it can be demonstrated that²⁰.

²⁰ Shifted from SASM-P8

- i. due to the functional needs or operational needs²¹ of the activity, it is not possible²² practicable²³ to avoid all adverse effects²⁴; and
- ii. any residual effects that cannot be practicably avoided are mitigated, as far as possible²⁵ practicable²⁶, in a way that protects, maintains or enhances the overall values of the site or area²⁷; or
- iii. for infrastructure, adverse effects are managed in accordance with EI-P2 ~~Managing adverse effects of Regionally Significant Infrastructure and other infrastructure~~²⁸, or for the National Grid, EI-PX5 ~~Managing adverse effects of the National Grid~~²⁹.

SASM-P6 Protecting cultural values in wāhi tūpuna areas

Recognise the significance to Kāti Huirapa of the wāhi tūpuna areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa and protect the identified values of these areas by avoiding significant adverse effects of activities in, or in close proximity to, wāhi tūpuna areas on the connections of Kāti Huirapa to these areas and the ability of the areas to support taoka species and mahika kai.

SASM-P7 Sustainability of ecosystems that support taoka and mahika kai

Within identified ~~SASM sites and areas~~ listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa that support taoka species and mahika kai resources:

1. avoid adverse effects on taoka species and access for mahika kai except in relation to infrastructure that can demonstrate that adverse effects are managed in accordance with EI-P2 ~~Managing adverse effects of Regionally Significant Infrastructure and other infrastructure~~^{30,31}, or for the National Grid, EI-PX5 ~~Managing adverse effects of the National Grid~~³²; and
2. enable the maintenance and enhancement of these areas.

SASM-P8 ~~Protection of wāhi taoka, wāhi tapu, wai taoka and wai tapu sites and areas~~³³

~~Where an activity is proposed within any of the wāhi taoka sites, wāhi tapu sites, wai taoka areas and wai tapu areas listed in SCHED6 — Schedule of Sites and Areas of Significance to Kāti Huirapa, ensure that:~~

- ~~1. there is engagement with Te Rūnanga o Arowhenua to understand the effects of the activity on the identified values of the site or area, including the connections of Kāti Huirapa to the site or area, the mauri of the site or area, site integrity, and the ability of the site or area to support taoka species and mahika kai; and~~
- ~~2. an accidental discovery protocol is prepared and adopted for any earthworks; and~~
- ~~3. any adverse effects on identified values are avoided unless it can be demonstrated that:

 - ~~a. due to the functional needs of the activity, it is not possible to avoid all adverse effects; and~~
 - ~~b. any residual effects that cannot be practicably avoided are mitigated, as far as possible, in a way that protects, maintains or enhances the overall values of the site or area; and~~
 - ~~c. where any historical loss of values can be remediated.~~~~

Rules

Note: Activities not listed in the rules of this chapter are classified as a permitted under this chapter. For certain activities, consent may be required by rules in more than one chapter in the District Plan. Unless expressly stated otherwise by a rule, consent is required under each of those rules. The steps plan users should take to determine what rules apply to any activity, and the status of that activity, are provided in Part 1, HPW — How the Plan Works - General Approach.
