Hi Linda

We submitted on the PDP requesting a SNA is included on land within our farm boundary. However on checking the draft decisions I don't think the area mapped in the plan is correct. Our submission requested the area in blue on the attached map was included as an SNA. However the map in the plan is quite different and includes a much larger area. We would request that the map in the plan is corrected to reflect the area included in our submission (as attached).

Many Thanks
