ACTIVITIES ON THE SURFACE OF WATER

Introduction

This chapter relates to activities that occur on the surface of rivers water within the District as the District does not contain lakes¹. The activities managed by this chapter include the use of motorised and non-motorised craft on rivers for various purposes, and the construction of structures on the surface of rivers water.

Activities occurring on the surface of water rivers² can have potential adverse effects on the ecological values, natural character values, recreational values and cultural values associated with the District's rivers. The provisions of this chapter seek to manage these adverse effects, while also providing for the sustainable use of motorised craft.

It is noted that speed and navigational safety associated with the use of watercraft is managed by the CRC Environment Canterbury Navigational Safety Bylaw. Water quality and aquatic biodiversity are managed through the Canterbury Land and Water Regional Plan. The noise effects associated with the use of motorised craft are managed under the Noise ~~(NOISE)~~ Chapter.

Please note, several of the rules below refer to flow levels of rivers. To find information on river flow levels please refer to the following CRC Environment Canterbury websites:

Ōrāri River at Gorge:

<https://www.ecan.govt.nz/data/riverflow/sitedetails/69505>

Ōpihi River at State Highway 1 SH1:

<https://www.ecan.govt.nz/data/riverflow/sitedetails/69607>

Pureora/Pareora/Pureora River at State Highway 1 SH1:

<https://www.ecan.govt.nz/data/riverflow/sitedetails/70103>

Objectives

ASW-O1 Protecting the values of the District's rivers

The ecological, recreational, natural character and cultural values of the District's rivers are protected from the adverse effects of inappropriate³ activities on the surface of water rivers⁴.

Policies

ASW-P1 Recreational use of non-motorised craft

Enable the non-commercial recreational use of non-motorised craft on rivers throughout the District at any time of the year.

ASW-P2 Use of motorised craft for specified activities

¹ Clause 16(2) RMA

² Clause 16(2) RMA

³ Jet Boating [48.1]

⁴ Clause 16(2) RMA

Enable the use of motorised craft on the surface of the District's rivers at any time of the year for the purpose of carrying out specified environmental management, temporary military training activities (TMTA), and ~~er~~⁵ search and rescue duties.

ASW-P3 Recreational use of motorised craft within specified areas of identified rivers

~~Provide for the non-commercial recreational use of motorised craft in areas identified in SCHED17 – Schedule of River Protection Areas where any adverse effects associated with their use are:~~

- ~~1. avoided by stipulating the time of the year when the activities can occur and~~
- ~~2. for Jet Boat NZ activities on the Ōpihi River, mitigated by limiting the duration, frequency and nature of those activities.⁶~~

Manage the adverse effects of non-commercial⁷ recreational use of motorised craft in areas identified in SCHED17 - Schedule of River Protection Areas by:

1. providing for their use:
 - a. within stipulated times of the year: and
 - b. within stipulated minimum water flows: and
2. avoiding the use of motorised craft outside the stipulated times and minimum water flow levels within (1), where it would result in adverse effects on the ecological, recreational, natural character, or cultural values of the rivers.⁸

ASW-P4 Commercial activities and structures⁹

Only allow commercial activities and structures on the surface of the District's rivers where it can be demonstrated that the activity and/or structure will not result in any:

1. adverse effects on fish spawning in the areas identified in SCHED13 - Schedule of Fish Spawning Area; and
2. adverse effects on the habitat of breeding birds; and
3. adverse effects on any other flora and fauna within riparian margins; and
4. cumulative adverse effects with other structures and activities on the surface of the river; and
5. adverse effects on the spiritual and cultural values and beliefs of Kāti Huirapa ~~cultural and spiritual values~~¹⁰ associated with the river; and
6. significant adverse effects on other recreational uses.

ASW-P5 Motorised craft within fish spawning areas

Avoid the use of motorised craft within fish spawning areas identified in SCHED13 - Schedule of Fish Spawning Area, except as provided for by ASW-R2.

ASW-P6 Other non-commercial activities

~~Avoid the use of non-commercial motorised craft not otherwise~~ Except as provided in ASW-P2 to ASW-P5, avoid the use of non-commercial motorised craft where the use of motorised craft will result in: unless the use of motorised craft will not result in¹¹:

- ~~1. occurs outside of~~ adverse effects on fish spawning and bird breeding season/s¹²; and
- ~~2. occurs outside of bird breeding season/s; and~~¹³

¹² Jet Boating [48.4]

¹³ Jet Boating [48.4]

~~3.2~~ will not result in¹⁴ adverse effects on other flora and fauna within riparian margins as a consequence of activities on the surface of the water river¹⁵; and
~~4.3~~ will not result in¹⁶ cumulative adverse effects with other commercial activities on the surface of the river; and
~~5.4~~ will not result in adverse effects on the spiritual and cultural values and beliefs of Kāti Huirapa cultural and spiritual values¹⁷ associated with the river; and
~~6.5~~¹⁸ will not result in¹⁹ significant adverse effects on other recreational uses.

Rules

~~Note: Activities not listed in the rules of this chapter are classified as a permitted under this chapter. The rules within this ASW chapter take precedence over apply instead of²⁰ the rules in Part 3 – Area-Specific Matters - Zone Chapters.²¹ For certain activities, consent may be required by rules in more than one chapter in the District Plan. Unless expressly stated otherwise by a rule, consent is required under each of those rules. The steps plan users should take to determine what rules apply to any activity, and the status of that activity, are provided in Part 1, HPW — How the Plan Works - General Approach.~~

ASW-R1	The use of non-motorised craft on all the District’s rivers for non-commercial recreational uses	
All rivers	Activity status: Permitted	Activity status when compliance not achieved: Not Applicable
ASW-R2	The use of motorised craft for specific environmental management, <u>temporary military training activities, and</u> or²² search and rescue purposes	
All rivers	Activity status: Permitted Where: PER-1 The use is for search and rescue purposes; or PER-2 The use is for scientific research; or PER-3 The use is for resource management monitoring undertaken by <u>CRC Canterbury Regional Council</u> or <u>Timaru District Council</u> or their contractors; or	Activity status when compliance not achieved: Discretionary
