Ministry of Education	106.23	Proposed variation to GRUZ-R7 in respect of Educational Facilities	Support	<p>We agree with the Ministry of Education's position that:</p> <p>(1) educational facilities should be provided for where there is a potential for a population to support them, including in the General Rural Zone;</p> <p>(2) educational facilities should be enabled in this zone as they are considered essential social infrastructure. We add that these educational facilities including Waihi School are already in existence, and further require the support of local government to ensure their continued development and success;</p> <p>(3) greater flexibility be provided for schools, including hours of operation to provide for wider community services (e.g. sporting activities). We note that this aligns with our intention that our school facilities be utilised for the wider community; and</p> <p>(4) the maximum number of people on site is removed as this provides unreasonable restrictions on educational facilities. We consider that the Ministry's approach reflects the realities of rural schools.</p> <p>The Ministry's proposed variations should be considered as an alternative to our original submission numbered 236. If the Council are not willing to vary the PDP in line with the Ministry's recommendations, then we wish to continue with the proposals in our submission 236 for either a Special Purpose (School) Zone, or the application of a precinct or specific controls to the Waihi and Rolleston Sites (as defined within our submission dated 15 December 2022).</p>	Allow	All changes proposed by the Ministry of Education in GRUZ-R7 are agreed - no tracked changes necessary.
