

Dust Suppressant on Road Application Form

This application must include all the required information in order to avoid a delay in the processing of your application.

To submit your application, email this form to: car@timdc.govt.nz.

Submission of this application does not grant permission for the work to commence. When Council has approved your application, a permit will be granted for the work to commence.

Section 1: Full Name and Address of Applicant			
Surname:		Given Name(s):	
Company Name:			
Postal Address:			
Home Phone:		Mobile:	
Email Address:			

Section 2: Location, Contractor and CAR Details	
Site Address:	
Legal Description of property:	
Property number:	
Distance of road that dust suppressant will be applied (m):	
TDC approved contractor to be used:	
CAR Number*:	

*- The TDC approved contractor will apply for a Corridor Access Request (CAR) from the Council – This is approval to work in the road corridor.

Section 3: **Site Plan**

Please sketch a plan of the site and location the oil is to be applied, including intersections and rapid number(s);

Section 4: **Conditions**

1. Work to be undertaken complies with the Canterbury Land and Water Regional Plan Rule 5.18 (copy attached), or if the work does not comply with this rule, a resource consent has been granted by Environment Canterbury for the work.
2. No work is to be carried out until written notification has been received from the Timaru District Council to proceed with dust suppressant application, and dust suppressant is only permitted to be applied by an TDC Approved Contractor with an approved Corridor Access Request (CAR).
3. All costs associated with the application for dust suppression will be met by the permit applicant.
4. The applicant shall be responsible for any damage to public or private property, which arise from application of the dust suppressant.

5. The applicant and/or the contractor undertaking the work erect signs and/or barricade sufficient to provide safety to the public, and keeps in force public liability insurance to protect liability for damage to third parties.
6. Dust suppressants shall not be applied to the roadway when the surface is wet or when wet weather is pending or when the surface has wheel ruts or potholes; i.e. any depressions that will hold water.
7. It is the applicant's responsibility to inform the council maintenance contractor that dust suppressant has been applied, to inform them not to grade the treated area.
8. Should the dust suppressed surface become a hazard to road users, either due to excessive oil having been applied or potholes and/or corrugations appearing on the road pavement, the Council will arrange for their maintenance contractor to grade out the dust suppressed section with no obligation to notify the applicant. No financial or material compensation for the effects of the grading will be paid by Council or its agents.
9. Council reserves the right to amend or cancel any approval given at its own discretion.

Section 5: **Signature and Date**

I have read and understand the conditions of this application:

(signature of applicant)	(full name of person signing)	(date)

Additional Information: **Canterbury Land and Water Regional Plan**

Dust Suppressants

5.18 The discharge of a dust suppressant onto or into land in circumstances where a contaminant may enter water is a permitted activity, provided either of the following conditions is met:

1. The discharge is only of vegetable oil, or of new light fuel or lubricating oil and is:
 - (a) applied in a manner that does not result in pooling or runoff, with a maximum application rate not exceeding 2 litres/m² per day and 4 litres/m² per annum; and
 - (b) not within 20 m of a surface water body, the Coastal Marine Area, a bore or soakhole; or
2. The dust suppressant is approved under the Hazardous Substances and New Organisms Act 1996 and the use and discharge of the dust suppressant is in accordance with all conditions of the approval.

5.19 The discharge of oil as a dust suppressant onto or into land in circumstances where a contaminant may enter water that does not meet one or more of the conditions in Rule 5.18 is a restricted discretionary activity.

The exercise of discretion is restricted to the following matters:

1. The actual and potential environmental effects of not meeting the condition or conditions of Rule 5.18.
