

Application for Engineering Design acceptance

Resource Consent No.

.....

To Timaru District Council

Applicant's details:

.....
(first name) (middle name) (surname)

.....
(company name / trust name)

.....
(street address)

.....
(postal address if different from above)

..... (phone number) (fax number)

.....
(e-mail address)

Agent's details: (will receive correspondence on behalf of the applicant)

.....
(name of applicant's professional advisor / firm name)

.....
(contact person)

.....
(postal address, must be within New Zealand)

..... (phone number) (fax number)

.....
(e-mail address)

Resource consent details:

.....
(physical address of development)

.....

..... (resource consent number) (legal description)

Required information:

I understand that this application must include the following items (please tick).

- A complete copy of the **Resource Consent** decision.
- A complete copy of the **Contract Specification and Calculations** which is to include details of who will own the proposed services (*i.e. private or public*).
- Details of who will carry out the construction supervision. Including their relevant experience / qualifications.
- Two sets of **Plans** printed to an acceptable scale on A3 paper clearly showing:
 - the extent of construction as per the Timaru District Council accepted preliminary plan.
 - the location and details of any underground services.
 - the extent of any earthworks.
 - component diagrams where required. (*e.g. Stormwater sumps, Manholes.*)
 - the location and details of any proposed landscaping.
- Two sets of **Long Sections** printed to an acceptable scale on A3 paper clearly showing:
 - cut, fill and finished levels.
 - location of any underground services.
- Two sets of **Cross-sections** printed to an acceptable scale on A3 paper clearly showing:
 - pavement depths and material details.
 - finished cross-fall.
 - location of any underground services.
- A signed and completed **Engineering Design Certificate** (*see next page*)

Note: *The enclosed **Contractors Completion Certificate** and **Engineers Completion Certificate** do not need to be provided to the Timaru District Council at application for Engineering Design acceptance. These certificates will need to be provided prior to the Timaru District Council final certification of the works.*

Declaration:

I request the Timaru District Council assess the attached Engineering Design for acceptance pursuant to the conditions of the attached resource consent. I understand that Council may take up to 20 working days to provide me with a response to this request.

Engineering Design Certificate

Resource Consent No.

Schedule 1A, New Zealand Standard; Land Development and Subdivision Infrastructure; NZS.4404

Issued by:
(approved certifier firm / suitably qualified design professional)

To:
(developer / owner)

To be supplied to the **Timaru District Council**

In respect of:
(description of land development / subdivision)

At:
(address)

I on behalf of have
(designer) (design firm)

been engaged by the abovementioned developer / owner to provide
(services provided)

services for the land development / subdivision describe above. I have the qualifications and experience relevant to this project as set out herein and have designed the subject works and confirm that the Engineering Design is to current engineering practice, and that I believe on reasonable grounds that it satisfies all relevant resource consent conditions, all relevant Timaru District Council requirements and applicable codes and standards.

My qualifications are:

.....
(professional qualifications and experience)

I / my design firm holds professional indemnity insurance in excess of no less than

\$ and includes runoff cover.
(minimum amount of insurance as recommended by IPENZ, ACENZ or INGENIUM)

I understand that my professional opinion may be used and relied upon by Timaru District Council in determining the outcome of any approval for the abovementioned land development / subdivision.

This certificate is furnished to the Timaru District Council and the abovementioned developer / owner for their purposes alone.

This certificate does not remove the necessity for further inspection during the construction of the works.

Design approved by:
(engineers signature)

.....
(date)
