

# From the Mayor and Chief Executive

### E aku nui, e aku rahi, tēnā koutou Nau mai, pānui mai i tēnei pūrongo

Welcome to Timaru District Council's Annual Report for the year ended 30 June 2019. We are pleased to present the results of our performance over the past year and celebrate some of the highlights that have been achieved.

The Annual Report presents our financial results as measured against the financial strategy set out in Year One of our 2018-28 Long Term Plan and shows how we performed in terms of the targets we set for our service delivery.

#### The year that was

It has been a good year in terms of financial management and service performance. We have kept within our financial measures set for 2018/19 where we delivered a strong operating surplus and achieved good results for most of our targets.

There is more detail on our progress later in this report.

Capital projects remain an area of challenge for Council. We made good progress on a number of our capital projects which included both infrastructure and enhancing recreational facilities. Some capital projects have fallen behind the original targets – due to working through design complexities to obtain an optimal outcome for the community, such as the replacement of the Timaru Library roof and the Timaru – Pareora gravity fed water pipeline renewal project where new technology is giving us a greater range of options to deliver more resilient infrastructure now and into the future.

#### **Community Wellbeing**

All of Council's work – be it providing services; advocating for our district; or facilitating connections within our communities, is focused on promoting the social, economic, environmental, and cultural wellbeing of the district. We know that we can be more effective when we are working with our community, and we appreciate the many people and

organisations who contribute in this way.

#### **Positive Partnerships**

During the year we again saw the benefit of partnering with groups in our community.

- Timaru District Visitor Strategy Recognising the importance of working in partnership with key community groups, Council formulated a new Visitor Strategy after valuable consultation with, and input from, key tourism and allied stakeholders across the district. The strategy has been established to guide the development of the tourism sector in the district over the next 10 years.
- City Hub The City Hub Strategy Project Steering Group is tasked with developing a strategy to ensure Timaru city remains a vibrant hub for the community. The Strategy will help identify practical steps Council, in conjunction with all stakeholders, needs to take to ensure the city and our district town centres in Temuka, Geraldine and Pleasant Point are vibrant and fit for purpose.
- District Plan Review An integral part of the multi-year review of the Timaru District Plan is our collaborative process as we work through drafting the various chapters of the Plan. Steering groups, which includes stakeholders with specialist knowledge, are being used to recommend draft District Plan provisions on three significant topics to date including biodiversity; heritage; and tangata whenua.
- Community Funding Where Council provides funding in the form of grants or loans to groups, services and events that are working to enhance community social or cultural wellbeing. Some examples of assistance given this year include: Victoria Trust to assist with the construction of further community housing for some of the districts most vulnerable residents; Timaru Senior Citizens, Aoraki Multicultural Council, The Blind Foundation and Citizens Advice Bureau providing support for their operating costs;

Temuka and Districts Historical Society – towards a seismic assessment of Temuka Courthouse Museum (being Phase 2 of their earthquake strengthening project).

#### **Our People**

The safety and wellbeing of our staff is an absolute priority. We employ approximately 240 full time equivalent staff in diverse working environments. We are continually reviewing and improving our processes to ensure their safety and wellbeing. The safety of the facilities we provide is also of paramount importance, and we are pleased to report that the measures we have in place have been met again this year.

#### **Looking Ahead**

We have a big capital programme planned over the next few of years. Much of this work involves upgrading core infrastructure to help increase the Community's resilience and enjoyment of civic amenities now and into the future including the work around the Theatre Royal Upgrade and the new Heritage Centre will also be underway. This, along with the City Hub Strategy will see a new vibrancy in the Timaru city centre.

#### **Finally**

This is my last message as Mayor of this fabulous district. Only a very few people have the absolute privilege to serve as Mayor, and to serve a community as wonderfully diverse and engaged as the Timaru Whānui is an honour I will forever treasure wherever my future journeys takes me.

Our district continues to thrive due to the cooperative efforts of our communities, volunteers, Councillors, Community Board members, Council staff and contractors, and most importantly you, the residents, who choose to call our district home.

Nō reira e ngā iwi o tēnei rohe

Tēnā koutou, tēnā koutou, tēnā tātou katoa

## Overview

#### About the Annual Report

The purpose of the Annual Report is to explain how we delivered on the 2018/19 Annual Plan (or Year One of the 2018-28 Long Term Plan).

The diagram below shows our planning and reporting cycle:

The report details our achievements and progress for our nine Groups of Activities as follows:

#### **DEMOCRACY**

#### **COMMUNITY SUPPORT**

Airport

Community Funding

Community Facilities (includes public toilets, cemeteries)

Economic Development and District Promotions

**Emergency Management** 

Safer Communities

Social Housing

## DISTRICT PLANNING AND ENVIRONMENTAL SERVICES

**Building Control** 

District Planning

Environmental Compliance (includes environmental health, animal control, parking enforcement)

#### **RECREATION AND LEISURE**

Cultural and Learning Facilities (includes art gallery, halls, theatre royal, libraries, museum)

Parks (includes parks, fishing huts, motor camps, forestry)

Recreational Facilities (includes Caroline Bay Trust Aoraki Centre, swimming pools, Southern Trust Events Centre)

#### **ROADING AND FOOTPATHS**

Cycleways and Walkways

Roading and Footpaths (includes street lighting and parking facilities)

SEWER

**STORMWATER** 

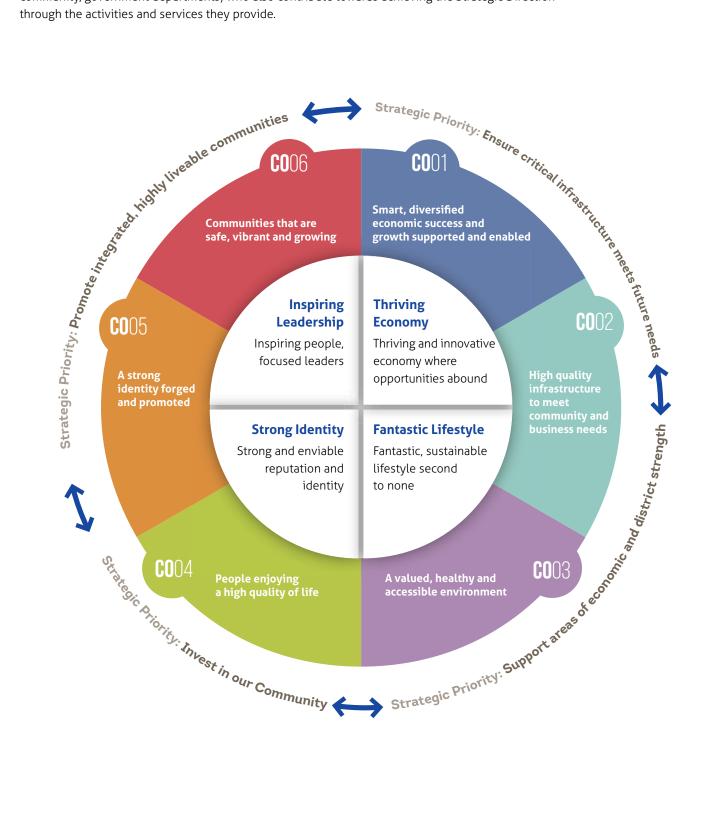

**WASTE MINIMISATION** 

WATER SUPPLY

#### Our Strategic Direction

The Timaru District Strategic Direction includes a Vision and Community Outcomes. Strategic Priorities have also been identified with Council's contribution towards these outlined in Section Two of the Long Term Plan through the services we provide.

The Council will continue to work with numerous organisations (e.g. health, business, environmental, community, government departments) who also contribute towards achieving the Strategic Direction through the activities and services they provide.

#### Our vision

#### **Inspiring Leadership**

Inspiring, people-focused leadership

We build on our strengths, minimise our weaknesses, challenge our threats and grasp our opportunities. This takes leadership.

This means:

We lead to inspire and enable our people and our future leaders

We proactively reduce barriers. Our leaders help create the environment for the future to happen

We plan for the future to take advantage of its opportunities and recognise and address its challenges

Our leaders make decisions that enable our community and economy to prosper

We serve our customers and community well

#### **Strong Identity**

Strong and enviable reputation and identity

We forge and strengthen a reputation and identity that other districts may aspire to.

This means:

We are proud of our district - our environment, our lifestyle, our communities, our people, our success

We build and own our identity

Our residents are our strongest advocates – locally, nationally, internationally

We respect and honour our heritage and individuality

We value, encourage and celebrate ethnic diversity

We celebrate and sell our story

New residents are welcomed, and feel welcome

Our creative and energetic arts and culture scene enhances and reflects our identity

Our communities preserve and grow their own individual identities

We celebrate our success

#### **Thriving Economy**

Thriving and innovative economy where opportunities abound

Our economy is essential to our future. We need it to grow innovatively and sustainably.

This means:

We build on our economy's agricultural roots and support innovative, future-focused industries

Our industries and businesses produce high quality goods and services while valuing the environment from which their raw materials are sourced

Our businesses are well supported and enabled to grow

Our district has a variety of training and employment opportunities available

Our standard of living grows continuously

We have planned balanced growth that keeps our businesses, population and youth local

We maintain and build on our district's strong economic diversification

New businesses choose Timaru District

Our businesses and other agencies work together for maximum district benefit

High quality infrastructure underpins the delivery of economic opportunity and prosperity

We put out the red carpet, not the red tape

#### Fantastic Lifestyle

Fantastic, sustainable lifestyle second to none

We live in a pretty special place. We want to keep it that way. We want to make it even better for ourselves, our children, their children.

This means:

Our communities are well serviced with essential services We have a humming, vibrant mix of places to go to and things to do

We feel safe walking the streets and crime rates remain low Our families are strong and our children and youth are provided with great opportunities to learn and grow

We care for and respect our elderly

We have abundant leisure, cultural, and sporting opportunities

We care for, enhance and respect the natural environment

Our district's opportunities attract people, skilled workers and families here to live, work and play

#### Council has identified the following community outcomes

## Smart, diversified economic success and growth supported and enabled

The Timaru District economy is well diversified. The Council is committed to being recognised as a business friendly Council – putting out the red carpet, not the red tape – and serving our customers with pride.

## High quality infrastructure to meet community and business needs

Providing high quality infrastructure is a core role of the Council, and is essential to strong, connected communities and sustainable economic prosperity.

## A valued, healthy and accessible environment

A healthy natural environment is critical to the district's prosperity. We must ensure that our actions enhance, protect and restore our natural environment wherever possible.

## People enjoying a high quality of life

A higher quality of life is everyone's goal. The Council provides services that underpin everyone's quality of life – the potable water that flows from your tap, to the transport network that connects you to your work, family and friends or the playground your children and grandchildren enjoy.

## A strong identity forged and promoted

Our identity defines our place in New Zealand and the world. We have much to value, to celebrate and to promote. Our identity is something that all current and future residents own, and that the Council is committed to promoting.

## Communities that are safe, vibrant and growing

We want the places where we live and play to be full of vitality, to be safe and to be well-planned for. The Council plays an important role in this through delivering excellent recreational, sporting and cultural facilities, supporting community events and initiatives and managing development and behaviour through appropriate rules and regulation.

Read more about our strategic direction in the Long Term Plan 2018-28, available from: www.timaru.govt.nz

#### Relationship with Ngāi Tahu

#### Ngāi Tahu as Mana Whenua of Timaru District

Ngāi Tahu are a Treaty Partner of the Crown and are mana whenua of the area administered by the Timaru District Council. Ngāi Tahu is the collective representation of whānau and hapū who share a common ancestry and are tangata whenua (people of the land). They hold ancestral and contemporary relationships with the lands, waters, and ecosystems of their takiwā. Mana whenua are hapū or whānau who, through a combination of whakapapa and occupation (ahi ka) hold customary authority over the land and resources of an area or takiwā. Associated with mana whenua status are the rights and duties of rangatiratanga and kaitiakitanga.

#### Ngāi Tahu Takiwā

The Te Rūnanga o Ngāi Tahu Act 1996 acknowledges the takiwā of Ngāi Tahu as extending over most of the South Island south of a line from Kahurangi Point on the West Coast and Te Parinui o Whiti (White bluff) near Cloudy Bay on the East Coast; and including off-shore islands. The contemporary structure and membership of Ngāi Tahu is set out in the Te Rūnanga o Ngāi Tahu Act 1996. The Act recognises Ngāi Tahu as being descended from five primary hapū: Ngāti Kurī, Ngāi Tūāhuriri, Ngāti Irakehu, Ngāti Huirapa and Ngāi Te Ruahikihiki. Chiefs from these hapu occupied and established themselves as mana whenua in various parts of the takiwā; Ngāti Huirapa in the Timaru District.

## Te Rūnanga and Papatipu Rūnanga (ngā rūnanga)

The Act recognises Te Rūnanga o Ngāi Tahu (Te Rūnanga) as the iwi authority within the Ngāi Tahu takiwā. Te Rūnanga is comprised of 18 papatipu (main) rūnanga who represent the whānau and hapū who hold mana whenua within the Ngāi Tahu takiwā. The takiwā of each rūnanga is described in the Te Rūnanga o Ngāi Tahu (Declaration of Membership) Order 2001. The papatipu rūnanga who represent those who hold mana whenua in the Timaru District and their respective takiwā are:

- Te Rūnanga o Arowhenua whose takiwā centres on Arowhenua and extends from Rakaia to Waitaki, sharing interests with Ngāi Tūāhuriri ki Kaiapoi between Hakatere and Rakaia, and thence inland to Aoraki and the Main Divide.
- Te Rūnanga o Waihao whose takiwā centres on Wainono and sharing interests with Te Rūnanga o Arowhenua to Waitaki, and extends inland to Omarama and the Main Divide.

Under s15 of the Te Rūnanga o Ngāi Tahu Act, Te Rūnanga must consult with papatipu rūnanga in forming a view on any matter. In practice, Te Rūnanga encourages councils, other government agencies and individuals to consult directly with papatipu rūnanga on issues in their takiwā. Te Rūnanga supports ngā rūnanga in these matters when requested by them, and represents Ngāi Tahu whānui in tribal matters and in negotiations with the Crown. Ngāi Tahu whānui also have shareholdings and interests in commercial activities and entities. These commercial entities may make applications or lodge submissions on Resource Management Act (RMA) processes from time to time but they are not mana whenua or the iwi authority.

## Treaty of Waitangi and Duties of Local Authorities

Council is required to take into account the principles of the Treaty of Waitangi when carrying out its duties under the Local Government Act 2002 (s4) and the Resource Management Act 1991 (s8). The relationship between Ngāi Tahu whānui and the Timaru District Council reflects, at a local level, the relationship between the Crown and its Treaty Partners; it is a partnership.

Council is also required to engage directly with mana whenua in relation to policy-making and decision-making under both the Local Government Act (LGA) and the RMA. Section 81 of the LGA requires all local authorities to establish and maintain processes to provide opportunities for Māori to contribute to Council's decision-making processes. It also requires councils to consider ways to foster the development of Māori capacity to contribute to these processes and to provide Māori with relevant information.

The RMA has specific requirements for Council to engage with tangata whenua through the iwi authority when preparing and reviewing the district plan and to consider tangata whenua values as part of decision-making on resource consent applications. While engagement with tangata whenua is provided specifically within the project planning for the district plan review and other key Council projects, it is important that the Long Term Plan recognises these obligations and provides for adequate resourcing and timeframes to ensure an appropriate level of engagement on relevant Council projects.

#### Council Relationship with Mana Whenua

Council considers it important to further develop relationships with the papatipu rūnanga who represent those who hold mana whenua in the Timaru District. Fostering these relationships is key to enabling Council to meet its statutory requirements under the LGA and RMA. Council will ensure all its key policy and decision-making processes include opportunities for discussion with mana whenua, through their mandated representatives, at the earliest opportunity and before any decisions are made; and endeavour to provide resources to help facilitate that engagement.

Council shall provide opportunities for mana whenua to engage in the development of key policy and plans, including the long term plans and annual plans, and on resource management plans, policies and strategies including the process, timing and content of plan or policy development and review. Opportunities are also considered for appointments on planning and resource consent hearing committees. To assist in this commitment, Council has signed a Service Level Agreement with Aoraki Environmental Consultancy Limited. Aoraki Environmental Consultancy Ltd is mandated by Te Rūnanga o Arowhenua to help advise Councils and other agencies on issues of interest to Arowhenua Rūnanga, to facilitate consultation with Arowhenua Rūnanga, and to ensure timely and appropriate input into policy, plans and processes on behalf of Te Rūnanga o Arowhenua. Council will also continue to offer places for rūnanga representatives on Council Committees, including the Environmental Services Standing Committee, the Safer Communities Committee and the Local Arts Assessment Committee, and other bodies as appropriate, and seek regular engagement with papatipu rūnanga to discuss matters of common interest and foster general relationships. Council's Senior Leadership Team will also be available to meet with ngā rūnanga representatives as required.

#### About the Timaru District

#### Geography and climate

Timaru District covers 2,737 square kilometres of South Canterbury. Two rivers naturally define its northern and southern boundaries, the Rangitata and Pareora, with the district stretching along the gentle curve of the South Canterbury coastline. Timaru District is the fourth largest district by population and sixth largest by area in the Canterbury region. It has a population density of 16.5 persons per square kilometre. The district enjoys a temperate climate, with Timaru enjoying an annual average of around 1,826 hours of sunshine and 573mm of rain.

#### **Demographics**

The estimated resident population of the Timaru District as at June 2018 was 47,300. The 2013 Census population was 43,929. Population projections\*, based on a medium growth scenario, project the district's population to increase to 49,400 (+8.8%) by 2028, peaking in 2038 at 50,200. The rate of natural increase will become negative from around 2028 meaning there will be more deaths than births. This reflects the age makeup of the district's population. Growth from 2028 will be reliant on net migration.

The population is expected to age in the future. Virtually all growth in future years is projected to be in age groups 65+, with the proportion of 65+ increasing from 20.1% in 2013 to 28.2% in 2028 and 32.9% in 2043.

Around 80% of Timaru District residents live in or around the four main settlements - Timaru, Temuka, Geraldine and Pleasant Point.

#### **Household Composition**

In Timaru District 68.5% are family households (NZ: 68.3%) and 29.1% are one-person households (NZ: 23.5%), The average household size is 2.3 people (NZ: 2.7 people), The medium scenario for the district's households projected growth is 22,000 households in 2033, rising to 22,300 in 2038. The increase in family households is for primarily couples without children (i.e. couples who do not yet have children, couples who do not/will not have children, couples whose children have left home). One-person households will increase, reflecting the structural ageing of the population.

#### **Families**

In Timaru District:

- 50.8% are couples without children (NZ:40.9%)
- 35.5% are couples with children (NZ:41.3%)
- 13.7% are one parent with children families (NZ: 17.8%)

#### Work

The most common occupational group in Timaru District are 'labourers', followed by 'managers' and 'professionals'. Of those in the labour force, 75% are employed full time, with the remainder employed part time.

#### Income

In Timaru District:

- For those aged 15 or above, the median income is \$26,900 (NZ: \$28,500)
- 37.7% have an annual income of \$20,000 or less (NZ: 38.2%)
- 22.9% have an annual income of \$50,000 or more (NZ: 26.7%)

<sup>\*</sup>Based on Statistics New Zealand Population Projections update

#### **Economy**

The Timaru District economy is strongly influenced by its agricultural heritage. Agriculture is diverse, including dairy, sheep and deer farming and land suitable for all kinds of cropping. Significant businesses are located in the district, including Fonterra's Clandeboye dairy factory, McCain's food processing plant, Hilton Haulage, Alliance Group Smithfield plant, Sanfords, Talleys, Silver Fern Farms Pareora plant and Barkers Fruit Processors. The district is centrally located for distribution and PrimePort Timaru provides a gateway for exports and imports.

Employment in the district is strong, with just 2.1% unemployment as at June 2019, compared with 4.1% nationally. The most significant business sectors in terms of employment opportunities are professional, scientific and technical services, manufacturing, health care and social assistance and retail trade.

Visitors are a significant contributor to the district's economy, with the district providing a gateway to the central South Island.

The latest Infometrics report for the quarter ended June 2019 shows progress for some key economic indicators, compared to the NZ situation.

Indicators	Timaru District	New Zealand
	Annual average % change	
Gross Domestic Product	<b>0</b> 1.8%	<b>1</b> 2.5%

Tourism Expenditure	<b>0</b> 4.1%	<b>O</b> 3.2%

<sup>\*</sup> Annual percentage change (compared to same quarter in previous year.)

#### **Communities**

Timaru is the largest community, housing nearly two thirds (29,600 people) of the total population of the district. The next largest community is Temuka (4,120), followed by Geraldine (2,310) and Pleasant Point (1,220). Our communities are well serviced with education, health and recreational services along with a vast range of clubs and organisations. The South Canterbury District Health Board is the major health provider, with the Ara Institute of Canterbury providing tertiary educational services throughout the South Island.

#### **Environment**

The diverse landscapes of the Timaru District include rolling downlands, tussock land, coastal plains and wetlands, forest remnants, river gorges and rugged mountain ranges. The coastal plains to the north and downlands to the south are highly modified for intensive cropping, meat, wool and dairy production. Pasture and exotic woodlots dominate the modified hills and downs from Peel Forest to Cave, with occasional shrub and forest remnants. Limestone outcrops and volcanic sediment add to the diversity of the landforms.

The district is also defined by a number of waterways, including the Orari, Opihi, Rangitata, Waihi and Pareora Rivers. The Rangitata and Pareora physically define the district and all waterways are highly valued by the community for their recreational, social, natural amenity and economic values.

The district has a number of outstanding natural features and landscapes, as well as areas of significant native vegetation habitats of native fauna. There are also numerous important heritage sites, buildings and places.

#### Statement of Compliance

#### **Compliance**

Pursuant to Section 98 of the Local Government Act 2002, the Council and management of Timaru District Council confirm that all the statutory requirements of Schedule 10 of the Local Government Act 2002 have been complied with.

#### Responsibility

The Council and management of Timaru District Council accept responsibility for the preparation of the annual Financial Statements and the judgements used in them.

The Council and management of Timaru District Council accept responsibility for establishing and maintaining a system of internal control designed to provide reasonable assurance as to the integrity and reliability of financial reporting.

In the opinion of Council and management of Timaru District Council, the annual Financial Statements for the year ended 30 June 2019 fairly reflect the financial position and operations of Timaru District Council.

Damon Odey

Mayor

8 October 2019

Bede Carran

Chief Executive

8 October 2019

#### Independent Auditor's Report

## To the readers of Timaru District Council and Group's annual report for the year ended 30 June 2019

The Auditor-General is the auditor of Timaru District Council (the District Council) and its subsidiaries and controlled entities (the Group). The Auditor-General has appointed me, John Mackey, using the staff and resources of Audit New Zealand, to report on the information in the District Council's annual report that we are required to audit under the Local Government Act 2002 (the Act). We refer to this information as "the audited information" in our report.

We are also required to report on:

- whether the District Council has complied with the requirements of Schedule 10 of the Act that apply to the annual report; and
- the completeness and accuracy of the District Council's disclosures about its performance against benchmarks that are required by the Local Government (Financial Reporting and Prudence) Regulations 2014.

We refer to this information as "the disclosure requirements" in our report.

We completed our work on 8 October 2019. This is the date on which we give our report.

#### Opinion on the audited information

In our opinion:

- the financial statements on pages 109 to 113 and 117 to 166:
  - present fairly, in all material respects:
    - the District Council and Group's financial position as at 30 June 2019;
    - the results of the operations and cash flows for the year ended on that date; and
  - comply with generally accepted accounting practice in New Zealand in accordance with Public Benefit Entity Reporting Standards:
- the funding impact statement on page 114, presents fairly, in all material respects, the amount of funds produced from each source of funding and how the funds were applied as compared to the information included in the District Council's Long-term plan;
- the activities and services statements on pages 36 to 105:
  - presents fairly, in all material respects, the levels of service for each group of activities for the year ended 30 June 2019, including:
    - the levels of service achieved compared with the intended levels of service and whether any intended changes to levels of service were achieved;
    - the reasons for any significant variation between the levels of service achieved and the intended levels of service;
       and
  - complies with generally accepted accounting practice in New Zealand; and
    - the statement about capital expenditure for each group of activities on pages 36 to 105, presents fairly, in all material respects, actual capital expenditure as compared to the budgeted capital expenditure included in the District Council's Long-term plan; and
    - the funding impact statement for each group of activities on pages 36 to 105, presents fairly, in all material respects, the amount of funds produced from each source of funding and how the funds were applied as compared to the information included in the District Council's Long-term plan.

#### Report on the disclosure requirements

We report that the District Council has:

- complied with the requirements of Schedule 10 of the Act that apply to the annual report; and
- made the disclosures about performance against benchmarks as required by the Local Government (Financial Reporting and

Prudence) Regulations 2014 on pages 167 and 168, which represent a complete list of required disclosures and accurately reflects the information drawn from the District Council and Group's audited information and, where applicable, the District Council's long-term plan and annual plans.

#### Basis for our opinion on the audited information

We carried out our audit in accordance with the Auditor-General's Auditing Standards, which incorporate the Professional and Ethical Standards and the International Standards on Auditing (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board. We describe our responsibilities under those standards further in the "Responsibilities of the auditor for the audited information" section of this report.

We have fulfilled our responsibilities in accordance with the Auditor-General's Auditing Standards.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the audited information.

#### Responsibilities of the Council for the audited information

The Council is responsible for meeting all legal requirements that apply to its annual report.

The Council's responsibilities arise under the Local Government Act 2002 and the Local Government (Financial Reporting and Prudence) Regulations 2014.

The Council is responsible for such internal control as it determines is necessary to enable it to prepare the information we audit that is free from material misstatement, whether due to fraud or error.

In preparing the information we audit the Council is responsible for assessing its ability to continue as a going concern. The Council is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless there is an intention to amalgamate or cease all of the functions of the District Council and the Group or there is no realistic alternative but to do so.

#### Responsibilities of the auditor for the audited information

Our objectives are to obtain reasonable assurance about whether the audited information, as a whole, is free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit carried out in accordance with the Auditor-General's Auditing Standards will always detect a material misstatement when it exists. Misstatements are differences or omissions of amounts or disclosures, and can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of readers taken on the basis of this audited information.

For the budget information reported in the audited information, our procedures were limited to checking that the budget information agreed to the District Council's Long-term plan.

We did not evaluate the security and controls over the electronic publication of the audited information.

As part of an audit in accordance with the Auditor-General's Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. Also:

- We identify and assess the risks of material misstatement of the audited information, whether due to fraud or error, design and
  perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a
  basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting
  from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District Council and Group's internal control.
- We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Council.
- We determine the appropriateness of the reported intended levels of service in the activities and services statements, as a reasonable basis for assessing the levels of service achieved and reported by the District Council.
- We conclude on the appropriateness of the use of the going concern basis of accounting by the Council and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast a significant doubt on the District Council and Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the audited information or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the District Council and the Group to cease to continue as a going

concern.

- We evaluate the overall presentation, structure and content of the audited information, including the disclosures, and whether
  the audited information represents, where applicable, the underlying transactions and events in a manner that achieves fair
  presentation.
- We obtain sufficient appropriate audit evidence regarding the entities or business activities within the Group to express an opinion on the consolidated audited information.

We communicate with the Council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Other Information

The Council is responsible for the other information included in the annual report. The other information comprises the information included on pages 2 to 18, 22 to 35 and 172 to 179, but does not include the audited information and the disclosure requirements.

Our opinion on the audited information and our report on the disclosure requirements do not cover the other information.

Our responsibility is to read the other information. In doing so, we consider whether the other information is materially inconsistent with the audited information and the disclosure requirements, or our knowledge obtained during our work, or otherwise appears to be materially misstated. If, based on our work, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Independence

We are independent of the District Council in accordance with the independence requirements of the Auditor-General's Auditing Standards, which incorporate the independence requirements of Professional and Ethical Standard 1 (Revised): Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board.

In addition to our audit and our report on the disclosure requirements, we have performed a limited assurance engagement related to the District Council's debenture trust deed, which are compatible with those independence requirements. Other than this engagement, we have no relationship with or interests in the District Council or its subsidiaries and controlled entities.

John Mackey
Audit New Zealand
On behalf of the Auditor-General
Christchurch, New Zealand

# The Year in Review

#### Expenditure and Revenue

## Overall operating expenditure was \$1,590,000 less than budget. The major items in this favourable variance were:

- A change in timing, added complexity, and delays experienced with some projects within the capital works programme has meant finance costs were \$1,539,000 less than budget and depreciation costs were \$521,000 less than budget.
- While operating costs were \$368,000 above budget, \$1,570,000 was attributable to negative movements in the value of interest rate swaps which were unbudgeted. Adjusting for this unbudgeted expenditure, operating costs would be under budget by \$1,100,000 due to lower maintenance costs and re-phasing of operational projects.

## Overall actual revenue was \$36,171,000 better than budget. The major items in this favourable variance were:

- Other Revenue was \$33,174,000 more than budget due to:
  - Timaru District Holding Ltd declaring a taxable share bonus of \$30,000,000. This is a non-cash transaction. The transaction is shown as revenue and increases Council's share capital in its CCO; and
  - Vested assets of \$1,930,000 which were not budgeted
- · All other classes of revenue are better than budget by small amounts:
  - Rates up \$87,000, due to new subdivisions
  - Fees and charges up \$1,368,000 with the biggest increase (\$481,000) in waste management and recycling revenue at the landfill.
  - Subsidies and grants up \$642,000 largely due to additional footpath funding from the NZ Transport Agency (NZTA) as a result of a NZTA policy change.
- Finance up \$642,000 due to higher than budgeted investment funds and term deposits increasing interest income.

### Contributing to the wellbeing of our community

Council's role in the community is much broader than simply providing services. Our role also encompasses promoting the wellbeing of residents through shaping places and services to meet the needs of our community. We are able to do this more effectively when we work in partnership with the community and draw on the wealth of talent, understanding and enthusiasm we have in the Timaru District.

The decisions Council makes about the services and facilities are made to enhance the quality of life of all Timaru district residents.

#### Projects and service highlights

## \$335k

#### new library books and resources

This is not just printed material – there is also a huge range of e-books, movies, audio books and reference materials. Plans are also underway for a portable short story dispenser – a creative vending machine that offers a random, printed short story for free at the push of a button.

There's now so many more ways that people can access reading material. The Library staff are confident these options will help support and encourage literacy in a new way.

\$422k

#### new walking and cycle suspension bridge in Centennial Park Timaru

The new bridge is now open for traffic - foot and cycle traffic only! With many more people using the park, the capacity of the old bridge was no longer meeting demand. The new bridge is a lighter construction and has meant the unsightly concrete piles in the stream bed have been removed.

\$5.27M

#### Sealed road resurfacing and reconstruction

Keeping the roading network up to scratch is an ongoing job – and it's expensive. Roads around the district benefited from resurfacing and reconstruction, including Badham Road, Te Moana Road, Coach Road and Arowhenua Road in our rural areas and Beaconsfield Road and Marine Parade in Timaru.

Sewer infrastructure replacements and upgrades

With all the pipes underground it is harder to see what's been achieved but it has been very busy. Council has a prioritised renewal programme to ensure robust sewer infrastructure into the future. Work this year focused on Talbot Street in Geraldine and Grey Road/Dee Street in Timaru.

#### Projects and service highlights

## Our History Illuminated: Timaru District Community 150

While the date officially marked the 150th anniversary of the first meeting of the Timaru Borough Council, the event was organised to celebrate what the whole district has achieved. The streets around the Council building in King George Place were closed to traffic for the night, and hundreds of people turned out to witness an amazing light display and a performance by the Alpine Energy Timaru Brass Band, also in its 150th year. There were food stalls as well as many family friendly activities organised by the various council departments.

\$2.4M

water supply infrastructure replacements and renewals

A number of renewal and upgrade projects were completed as part of the ongoing upgrading of our water supply infrastructure. Of note were the Washdyke Flat Road, Timaru watermain upgrade, and Forth Street and Dawson Street, Timaru watermain renewals.

The Pleasant Point Water supply infrastructure has had some major upgrading. Construction of the new water reservoir was completed, and treatment plant and pump station have been upgraded.

\$1.2M

development of facilities to help divert waste from the landfill Our waste minimisation team are continually working on ways to divert waste from our landfill. This year we completed a waste sort trial, and work is now underway designing an improved waste sort facility at the Redruth Resource Recovery Park. This will mean better recycling facilities, and more effective sorting of waste – both commercial waste deliveries and other waste dropped off at the transfer station.

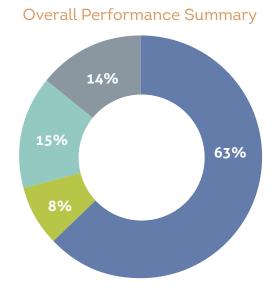

#### How we measure our service performance

Council measures its performance each year using a core set of indicators that are determined through the Long Term Plan.

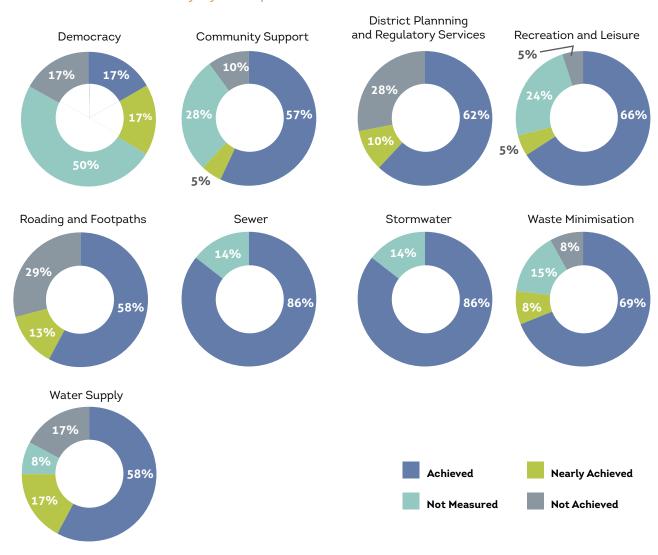

We have 152 performance measures with targets that we report on across 9 groups of activities.

We achieved 95 of these targets, nearly achieved 12, and 21 were not achieved. 24 were not measured this year as they are measured every second year (the bulk of these are for our biennial community survey).

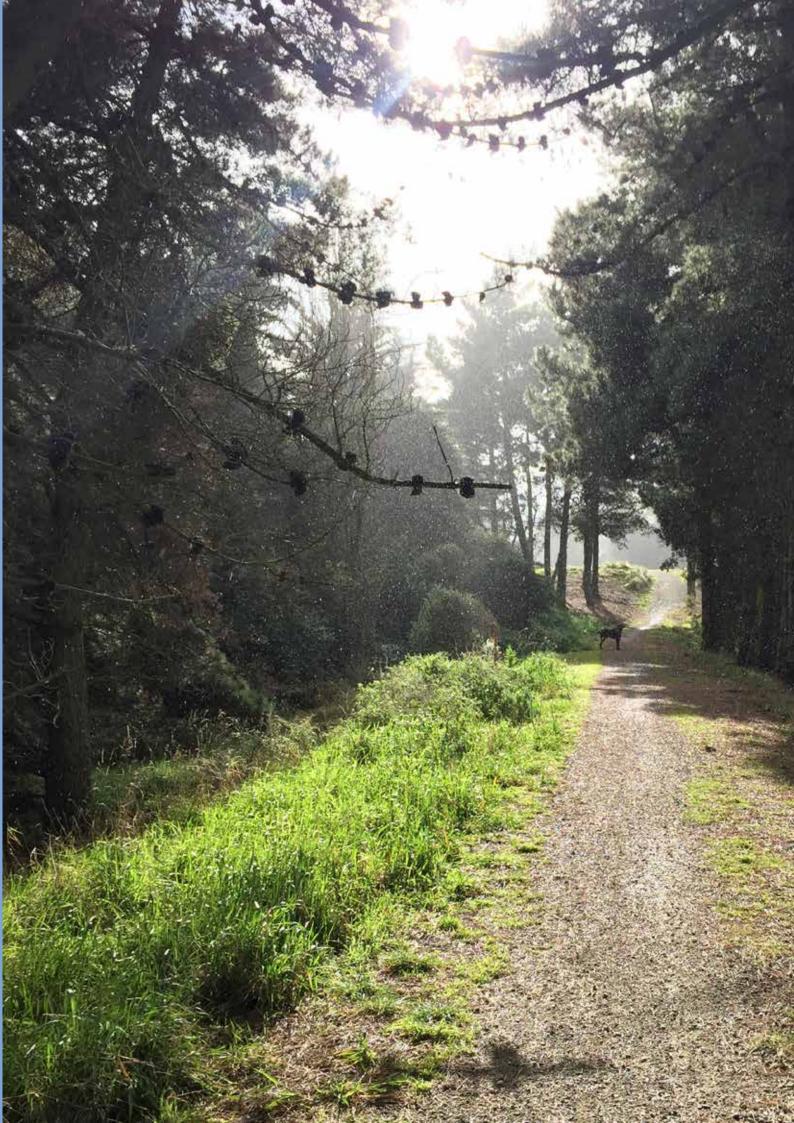

Note: Nearly Achieved applies where the result achieved was within 5% of target

#### Performance Summary by Group of Activities

## Council Activities

#### Council Activities

This section describes the work and performance of the Council's Groups of Activities, for the 2018/19 year.

#### What we do

A description of the activities included within each group and their key functions.

## Contributions to Community Outcomes

An indication of which community outcomes these activities contribute to.

Council has nine groups of activities as outlined below

#### Highlight and Challenges

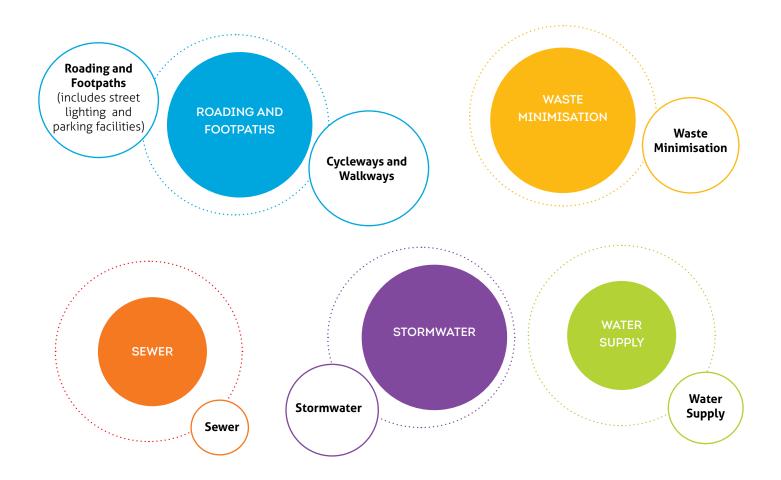

A description of some of the highlights and challenges for each activity.

#### Service Performance

A summary of how the Council performed against performance measures for each activity.

#### Financial Information

A funding impact statement that show how each group of activities has been paid for.

# Democracy

#### What we do

The Democracy activity supports and guides all the activities carried out by the Timaru District Council.
The activity enables Council to function and provide stable, transparent, effective, efficient and accountable local governance to the District.

The elected members of Council set direction, lead and make decisions. This is focused around progressing toward Council's Vision and Community Outcomes, with the overall goal of improving community well-being.

The activity includes all work associated with the elected Council and Community Boards in Geraldine, Pleasant Point and Temuka. Elected members, being community representatives, make decisions within the framework of the Local Government Act 2002 (LGA) on behalf of and in the interests of the community. Council and Community Boards are elected every three years.

#### Key tasks include:

- Advocacy on issues that affect the district
- Allocating funding to Council activities
- Consultation with the community
- Communicating decisions, policy and activities to communities and stakeholders
- Developing and implementing strategy, policy and plans such as the Long Term
   Plan and District Plan
- Civic functions, such as citizenship ceremonies, award ceremonies and parades
- Elections and Representation reviews
- Administering statutory governance functions (e.g. Standing Orders, Delegations Registers)
- Partnering with external agencies
- Performance, planning and accountability. The development and adoption of key Council planning and accountability mechanisms, such as the Long Term Plan, Annual Plan and the Annual Report
- Maintenance of Sister City relationships with Eniwa (Japan), Weihai (China), Orange (Australia) and Orange (United States)
- Overall monitoring of Council operations
- Working regionally to ensure joint approaches on various issues.

#### **Contributions to Community Outcomes**

Democracy contributes to the following Community Outcomes

High quality infrastructure to meet community and business needs

People enjoying a high quality of life promoted

People enjoying a high quality of life promoted pr

#### Democracy Highlights and challenges

There were a number of formal and informal community consultations on key issues where Council wanted to hear residents' views.

The consultation that generated the most community discussion was whether Council should sell its shares in Alpine Energy Ltd. There was significant public interest in the issue, with close to 600 submissions received, the majority against the proposed sale. After considering community views Council decided that the shares would not be sold.

The 2019/20 Annual
Plan was prepared. As there
were no significant variations from
Year 1 of the Long Term Plan 2018-28
there was no formal consultation with
the community. We let residents know
about key plans and projects for the year
through an information publication
distributed to all households,
as well as on the Council

Advocating for our community – this is one of Council's key roles. With a large number of proposed legislative amendments and new government initiatives, Council has made numerous submissions on the District's behalf. These included the Climate Change Response (Zero Carbon) Amendment Bill, Residential Tenancies Act reforms, Reform of Vocational Education proposals, proposed International visitor conservation and tourism levy, Environment Canterbury 2019/20 Annual Plan and Environment Canterbury Land and Water Regional Plan (Draft Plan Change 7).

## The 2018 Representation Review process was conducted as required by legislation

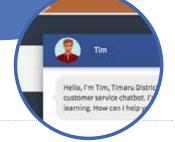

After seeking community views and considering options for the most effective representation arrangements (elected Council and Community Board members), Council concluded no changes were required to the existing Council representation structure, including Community Boards.

# As part of the greater Canterbury Mayoral Forum we continued to advocate for the district and the region.

As part of this submissions were made on matters such as Employer Assisted work visas and regional workforce planning, and draft National Planning Standards. All of these proposed new requirements have an impact on our district and it is important that our views are made known.

# Council continues to look for effective ways of communicating with and providing services to residents

As well as the long standing Council noticeboard in the Courier newspaper each week, we are using the Council Facebook page to convey news, as well as respond to questions from the community. We recently upgraded our chatbot Tim - the new function on the Council website where answers can be provided to a wide range of questions.

#### **Service Performance**

Level of Service	Performance Measure	Target	Result/Achievement
Make decisions in an open, transparent manner	Proportion of main items held in open Council meetings*	≥90%	Not achieved 72.78% (2017/18: 80%) There were more sensitive information items than predicted that required consideration in closed meeting.
	Resident satisfaction with influence on Council decision making	≥50%	Not measured Surveyed biennially. Next survey in 2019/20 (2017/18: 53%)
Provide leadership on issues affecting the district	Resident satisfaction with Council's leadership	≥65%	Not measured Surveyed biennially. Next survey in 2019/20 (2017/18: 56%)
Communicate with the community on topics of interest	Resident satisfaction with how well Council keeps public informed and involved in decision-making	≥65%	Not measured Surveyed biennially. Next survey in 2019/20 (2017/18: 69%)
Monitor the Council Organisation's performance	Clear audit opinion for Long Term Plan and Annual Report	Unmodified opinion received	Achieved A clear, unmodified audit opinion was received for the 2017/18 Annual Report and end of year audit.
Meet our statutory and legislative obligations	Compliance with LGA planning and accountability requirements	LGA planning and accountability requirements met	Nearly achieved A clear audit opinion was received for the 2017/18 Annual Report. However the report was adopted after the 31 October statutory deadline. The 2019/20 Annual Plan was adopted on 25 June 2019 which was within the statutory deadline of 30 June.

# **Community Support**

#### What we do

The Community Support group includes Timaru Airport, Community Facilities (Cemeteries and Public Toilets), Community Funding, Economic Development and District Promotions Emergency Management, Safer Communities and Social Housing.

The focus of these activities is to help:

- build strong, connected and supportive communities
- provide high quality community facilities (cemeteries and public toilets)
- support people, organisations and the business community
- ensure healthy communities
- assist vulnerable people in our communities
- assist individuals and communities to be prepared and resilient in times of adversity

#### **Contributions to Community Outcomes**

Community Support contributes to the following Community Outcomes

	High quality infrastructure to meet community and business needs	Smart, diversified economic success and growth supported and enabled	Communities that are safe, vibrant and growing	People enjoying a high quality of life	A strong identity forged and promoted	A valued, healthy and accessible environment

Social Housing	P		S	S		

P Primary contribution S Secondary contribution

#### Community Support Highlights and challenges

#### COMMUNITY FUNDING

A large number of applications for Council's community funding donations and loans were received. Some of the community groups to benefit from the funding included:

- Victoria Trust received a grant and a loan to assist with the construction of further community housing for some of the District's most vulnerable residents.
- Timaru Senior Citizens, Aoraki Multicultural Council, The Blind Foundation and Citizens Advice Bureau all received a grant towards their operating costs.
- Temuka & Districts Historical Society received funding towards the seismic assessment of Temuka Courthouse Museum as part of phase 2 of their earthquake strengthening project.

Through a successful bid for Ministry of Justice funding Council supports "Project Turnaround" – a restorative justice service where trained staff are employed to work with offenders, victims and their families. While the operating environment and the contract criteria are becoming more complex, the Timaru based service has again had a very successful audit. It is one of the top performing service providers in the country, with high service delivery standards and a proven record of meeting local community needs.

#### **PUBLIC TOILETS**

## Reroofing the large toilet block at Caroline Bay completed the upgrade of this facility.

Along with the large exterior prints of Caroline Bay the facility now looks more contemporary, as well as having a more functional interior.

Council appreciated working with the Cave community to install a waterless toilet in the park area near the centre of the village.

This was a great community effort with both council and the community working together to achieve a positive result.

The upgrade of the toilet block in the upper Botanic Gardens including wall and floor tiles has rejuvenated an older style toilet block.

#### **Economic Development**

Aoraki
Development,
a Council
Controlled
Organisation
(CCO) is tasked
with fostering
economic
development in
the district.

Some of their key initiatives this year included:

- **Delivering** a Ministry of Social Development contract focused on transitioning secondary school students into the workforce by exposing, educating and exciting our next generation on their next important move.
- Facilitating enhanced collaboration and trust between a variety of local industry sectors such as Food Processing & Manufacturing, Trades and Transport & Logistics via Business Connections Groups. This has resulted in best practice sharing within and between industry sectors across health & safety, training, systems and procedures, staff attraction and career pathway promotion into secondary schools.
- Launch of the WeloveTimaru workforce attraction campaign via national billboards, social media, and other mediums including mobile advertising on transport operator vehicles. Feedback from local businesses notes that the campaign has been a key influencer in attracting several new employees and their families to the district.
- Facilitating the establishment of new business in the district through fostering key strategic partnerships locally and nationally.

#### DISTRICT PROMOTIONS

A big focus during the year was the development of a new look and new focus Timaru District Visitor Strategy developed with input from key tourism and allied stakeholders across the District.

#### **Service Performance**

Level of Service	Performance Measure	Target	Result/Achievement
Community facilities are well maintained, clean and safe	Airport user satisfaction with facility	>70%	Achieved 95% (2017/18: 66%) Improved performance as a result of the airport terminal and carpark upgrade

#### Significant Financial Variances between Actual and the Long Term Plan

#### Increase / (decrease) in debt \$270,000 above LTP

- A loan of \$81,000 was raised this financial year for Timaru Airport upgrades and was budgeted for in the 2017-2018 Annual Plan.
- Loans of \$220,000 were budgeted to be advanced in regards to sports and recreation and community development. No actual loans were advanced this financial year.

#### Enhancing the social, economic, environmental and cultural wellbeing of our community

How we use land has a major effect on the look and feel of our district, and how resilient our communities are.

Through our District Planning function, Council supports the growth of the District while ensuring our environment is protected.

Regulating the building activities in the District supports safe and sustainable housing and commercial development.

Our environmental compliance services administer legislation and regulation designed to protect public health and safety.

Together these services work to enhance all aspects of community wellbeing.

# District Planning and Environmental Services

#### What we do

District Planning and Environmental Services activities include:

- Building Control administering and implementing the provisions of the Building Act 2004. Under the Act Council is an accredited Building Consent Authority and is responsible for processing and granting building consents and a range of other inspection and monitoring work. A 2016 amendment to the Building Act requires Council to ensure that all potentially earthquake prone buildings within the District are assessed within the statutory timeframe, for the purpose of identifying their level of structural compliance.
- District Planning primarily concerned with managing how land is used and how subdivision is undertaken in the district. The key tool for managing this is the Timaru District Plan which outlines the district's resource management issues and objectives, policies, methods and rules.
- Environmental Compliance primarily concerned with preserving, improving, and promoting public health and safety in the District. It deals with matters such as food safety, disease containment, noise control, hazardous substances, liquor licensing, environmental nuisance, gambling control, parking enforcement and animal control, as well as enforcement of the Timaru District Consolidated Bylaw 2018.

These activities
are concerned with
sustainable building and land
use development, consenting,
compliance, monitoring and
enforcement functions across a
wide cross-section of statutes
that focus on the protection of
community health, wellbeing,
safety and amenities.

#### **Contributions to Community Outcomes**

District Planning and Environmental Services contributes to the following Community Outcomes

	High quality infrastructure to meet community and business needs	Smart, diversified economic success and growth supported and enabled	Communities that are safe, vibrant and growing	People enjoying a high quality of life	A strong identity forged and promoted	A valued, healthy and accessible environment
Building Control		S	P	S

#### District Planning and Environmental Services

#### Highlights and challenges

#### **BUILDING CONTROL**

A total of 1,113 building consents were processed during the year, and 99.19% were within the statutory timeframes (2017/18: 2,093 consents were processed; 99.3% of these met the statutory timeframes).

New legislative requirements regarding the inspection of registered swimming pools saw the Council develop a three year inspection cycle. This is due to conclude in December 2019, and the target set for the year ended June 2019 was achieved and 100% of the inspections will be completed within the statutory timeframe.

99.87%

of known dogs were registered at year end – a successful result due to combined efforts of responsible dog owners, Council staff and a Councilled programme of dog ownership and dog control education initiatives.

#### ENVIRONMENTAL COMPLIANCE

Good progress was made to audit registered food premises operating under a Food Control Plan. Council inspection staff and business owners have worked together to gain develop a good understanding of the new legislative requirements for food premises with a pleasing result.

#### DISTRICT PLANNING

The multi-year
District Plan review
is progressing well
and the collaborative
approach involving
key stakeholders
in drafting the
plan has been very
successful.

100%

of resource consents were processed in statutory timeframes: 261 consents were processed (207 in 2017/18).

The refreshed
Significant Natural Areas
fund has been fully allocated
this year. The fund is one of the
ways Council is able to work with
the community to help protect
significant indigenous vegetation
and significant habitats of
indigenous fauna in the
district.

#### **Service Performance**

Level of Service	Performance Measure	Target	Result/Achievement
Perform statutory functions as a	Building Consent Authority accreditation	Accreditation retained	Achieved (2017/18: Achieved)
regulator under key legislation	District Plan statutory compliance	District Plan complies with statutory requirements	Not achieved.  The District Plan does not currently comply with all statutory requirements as it has not given effect to the National Policy Statement for Electricity Transmission and the National Policy Statement for Renewal Energy Generation. Although plan changes were prepared to give effect to these National Policy Statements, Council decided not to proceed and instead give effect to the National Policy Statements through the District Plan Review. This is considered a relatively minor statutory non-compliance, which the Ministry for the Environment is aware of.  (new measure)
	Council milestones for the District Plan review are met	2018/19: District Plan drafting commences	Achieved (new measure)

Level of Service	Performance Measure	Target	Result/Achievement
Deliver timely, efficient processing of consents and related	Percentage of building consents granted within 20 working days.	100%	Nearly Achieved 99.19% (2017/18: Achieved)
requirements	Average building consent processing time	Processing time reduces	Achieved 12.54 days (2017/18: 13 days)

Funding belones ((A. D) + (C. D))			

Note: Figures in the LTP columns agree in total, but for presentation purposes, some sources and applications of funding have been reallocated to be comparable with the 2019 actual column.

0

0

0

Funding balance ((A - B) + (C - D))

#### Significant Financial Variances between Actual and the Long Term Plan

#### Payments to staff and suppliers \$856,000 below LTP

• Expenditure for the District Plan Review was budgeted to be \$1,446,600. Actual expenditure incurred was \$742,000.

#### Increase / (decrease) in reserves \$687,000 above LTP

• Transfers from reserves was lower due to the timing of expenditure on the District Plan Review.

# Recreation and Leisure

#### What we do

Recreation and Leisure activities provide quality cultural, learning and recreation facilities for residents and visitors to enjoy.

#### **Cultural and Learning Facilities**

- Aigantighe Art Gallery
- South Canterbury Museum
- Timaru District Libraries facilities in Timaru, Geraldine, Temuka and online, with the Geraldine and Temuka Libraries doubling as Council Service Centres
- Halls (Halls include 7 facilities owned and managed by Council, 11 community halls owned by Council and managed by community committees, and a number of facilities operated by but not owned by Council)
- Theatre Royal

#### **Parks**

- Premier parks of particular significance to the district, such as Timaru Botanic Gardens, Caroline Bay and the Temuka and Geraldine Domains
- Sports and recreation parks
- Neighbourhood Parks, in urban areas and often incorporating playgrounds
- Amenity parks designed to provide opens spaces and plantings
- Natural parks, located predominately in rural areas, often including walking and cycling tracks
- Special purpose parks and civic spaces

#### Recreational Facilities

- Caroline Bay Trust Aoraki Centre (CBay)
- Swimming pools in Geraldine, Pleasant Point and Temuka
- Southern Trust Events Centre

#### **Contributions to Community Outcomes**

Recreation and Leisure contributes to the following Community Outcomes

	High quality infrastructure to meet community and business needs	Smart, diversified economic success and growth supported and enabled	Communities that are safe, vibrant and growing	People enjoying a high quality of life	A strong identity forged and promoted	A valued, healthy and accessible environment
Cultural and Learning Facilities	P	S	P	P	P	S
Parks	P	S	P	P	P	S
Recreational Facilities	P	S	P	P	P	S

P Primary contribution S Secondary contribution

#### Recreation and Leisure Highlights and challenges

#### ATGANTIGHE ART GALLERY

A "Pop-up Art Lab" was trialled in central Timaru over the school holidays. This provided a unique space for children to explore the arts, be creative and take ownership of the space. The initiative was well received by visitors and the community.

A wide range of exhibitions were hosted during the year, including

- Beasts and Creatures an exhibition aimed at children that showcased all the animals and creatures hiding in the Collection.
- Artarama a festival of South Canterbury's creative students aged 3 to 18. This is a fantastic opportunity to see artworks by students from across the district
- Land Marks Architectural forms of South Canterbury - in conjunction with The New Zealand Institute of Architects Festival of Architecture this presented an exploration of South Canterbury's rich architectural heritage from the past to the present.
- Polychrome -a diverse range of artworks by Ara Post-graduate Arts and Media students from both the Christchurch and Timaru campuses.

To Whom it may Concern - Local artist Brian High's immersive and mesmerising video installation, which explored the beauty of nature and the rapidly changing regional landscape.

The closure of the House Gallery due to an adverse earthquake rating provided the opportunity to refurbish the 1978 extension to provide a more professional first impression and maximise exhibition space. The physical work to strengthen the House Gallery is expected to commence in 2019/20.

#### **LIBRARIES**

## Accessing library material online is increasing year on year.

During the year the exciting new eResource Kanopy – an online video streaming service with a great collection of award winning films, was introduced. Other online resources such as eBooks, PressReader and online catalogue searches are proving popular.

School holiday
programmes are wide
and varied including
reading challenges,
SparkJump, and
numerous craft and
music groups

With refreshed interiors, the library spaces are welcoming, warm and sociable and are popular community gathering places. Some visitors use the wifi, some browse the books and digital materials, while others are attending some of the many groups offered. The options are vast – from the Ukelele group, book clubs, device advice, knitting and crocheting, adult colouring-in club, Justice of the Peace service, Mahjong club, AA driver theory licensing and relicensing, to name just a few.

Many visitors to the library are not just there to access reading material. The use of free wifi including Aotearoa People's Network Kaharoa sessions draws many visitors to our libraries.

The Timaru Library roof project required further professional assessment to determine the most appropriate way forward, meaning that the project is now planned for 2019/20.

#### SOUTH CANTERBURY MUSEUM

- With funding from the Ministry of Education, the Museum was again able to offer a Learning Experiences Outside The Classroom (LEOTC) programme to primary schools students across the district. This continues to be well supported by local primary schools with attendance numbers over target. The Ministry of Education programme evaluation was again very positive.
- With many of the Museum's collection items holding interest for people beyond the district there has again been increased engagement with people far and wide via social media. This can range from searching the museum's catalogues, to viewing upcoming events.

Following
the success
of earlier community
events hosted by the Museum,
this year the staff facilitated the
highly successful "Rock Street"
party and "Our History Illuminated".
These events attracted residents of
all ages, from around the district,
and provided an opportunity to
celebrate Timaru district
and have fun!

#### RECREATIONAL FACILITIES

CBay Age Fit (designed mainly for older people) and AquaFit classes – are proving very popular. Although the number of classes were increased this year – they were still over subscribed, and CBay will be looking to provide even more next year. As well as being a good exercise opportunity, they are very social occasions with the café at CBay well utilised at the end of many of these sessions.

At the other end of the age spectrum attendance numbers show more children using the pool facilities than the previous year. There is a wide range of programmes offered from water safety skills and learn to swim lessons, pre-school classes and competitive squad training.

Following the earlier
upgrading of the Geraldine
swimming pool, upgrades at the
Pleasant Point pool were carried out
during the year. A major upgrade is planned
for the Temuka pool next year. These
are important facilities for each of the
townships and attendance numbers
are proof of this.

The Southern Trust Events Centre hosted many local sports competitions this year as well as the New Zealand Secondary Schools Netball Championship and the South Island Masters Games in October.

#### HALLS

Through regular improvements we aim to provide community halls that are fit for purpose. This year we upgraded:

#### Washdyke Community Centre

Refreshed two changing rooms with paint and new partitions

#### Temuka Stadium Lounge

New carpet and chairs

#### Caroline Bay Soundshell

New paint, new side curtains for the stage and remodelling of some of the toilet facilities

#### Theatre Royal Upgrade and New Heritage Facility

The Theatre Royal upgrade and new Heritage Facility (to be co-located with the Theatre Royal) are two key projects under our Long Term Plan.

Synergies between the two projects were always recognised, and earlier this year Council approved the two projects being undertaken as one, which brings the planning for the Heritage Facility forward.

Together, these projects are expected to deliver improved recreational, entertainment and cultural opportunities for our community and visitors, be a catalyst for further redevelopment of the south end of Timaru's CBD, and ultimately create a more vibrant southern CBD.

An upgraded Theatre Royal will provide a fit for purpose facility for users and patrons and attract touring shows to Timaru. The new Heritage Facility will provide exhibition space for our South Canterbury Museum, with additional exhibition space for touring heritage exhibitions as well as our art gallery. Its connection with the Theatre Royal and other nearby facilities (e.g. Te Ana Maori Rock Art Centre) presents many opportunities through the development of a heritage and cultural precinct within our City.

The project was established in 2018/19, involving project set up, research and other preliminary work. Looking forward to 2019/20 sees the project move into detailed planning, procurement, and design. Physical works on the site such as early enabling works may be able to commence towards the end of 2019/20

#### **Service Performance**

Level of Service	Performance Measure	Target	Result/Achievement
Recreation and leisure facilities, programmes	Art Gallery – visitor numbers	19,000	Achieved: 19,205 (2017/18: 22,032)

Surplus (deficit) of capital funding (C - D)	(2,825)	(3,263)	(3,212)
Funding balance ((A - B) + (C - D))	0	(0)	0

Note: Figures in the LTP columns agree in total, but for presentation purposes, some sources and applications of funding have been reallocated to be comparable with the 2019 actual column.

#### Significant Financial Variances between Actual and the Long Term Plan

#### Internal charges and overheads applied \$312,000 above LTP

• Corporate overhead charges to Swimming Pools was \$206,000 above budget.

#### Increase / (decrease) in debt \$3,506,000 below LTP

- A loan of \$1,500,000 has not yet been required to be raised due to timing of major expenditure in relation to the Theatre Royal and Heritage Facility Projects.
- A loan of \$400,000 was budgeted to be raised for the Aigantighe Art Gallery building upgrade. Due to timing of this project, no loan was required. The project has been re-budgeted to commence in the 2019-2020 financial year.
- A loan of \$213,700 was budgeted for the Temuka Domain development. Work has been delayed and no loan required to be raised this financial year.

#### Capital expenditure – to improve the level of service \$981,000 below LTP

- A budget of \$470,000 was included for the upgrade of the Temuka Swimming Pool. The project has been re-scoped and will be completed in the 2019-2020 financial year.
- The Temuka Domain Redevelopment was budgeted at \$164,000. Actual expenditure incurred was \$19,000.
- The Aigantighe Art Gallery budgeted \$560,000 for upgrade to its building. Actual expenditure incurred was \$78,000.

#### Capital expenditure - to replace existing assets \$4,657,000 below LTP

- As discussed above, the timing of major expenditure in relation to the Theatre Royal upgrade has shifted to 2019/20. The project has been combined with the Heritage Facility project for best community outcome.
- As discussed above, the Timaru Library roof renewal project and carpet replacements was re-budgeted due to unforeseen design complexities. Actual expenditure incurred was \$416,000.

#### Increase / (decrease) in reserves above \$2,029,000 above LTP

• Transfers from reserves were lower due to the timing of expenditure on project works.

# Roading and Footpaths

#### What we do

#### The Roading and Footpaths group includes:

- Roading and Footpaths
- Cycleways and Walkways
- Parking Facilities
- Road Safety

Timaru District is a regional transportation hub, servicing large agricultural areas, associated processing plants and a significant port operation. Council currently manages over 1,700km of sealed and unsealed roads, 297 bridges (including single lane bridges, weight restricted bridges, large culverts and footbridges), 312km of footpath, drainage facilities (e.g. soak pits, culverts), street furniture, signs, bus stops, carparks, traffic signals, kerb and channel, 4,406 street lights, cycleways, road marking and some minor structures. Overall management of these assets is provided by Council, with operational work carried out by contractors.

Funding for
the management and
maintenance of the roading and
footpaths network is provided from
rates, loans, and user charges together
with funding assistance received from
central government through the New
Zealand Transport Agency (NZTA). The
NZTA is also responsible for the
State Highway network.

#### **Contributions to Community Outcomes**

Roading and Footpaths contribute to the following Community Outcomes

P Primary contribution S Secondary contribution

#### Roading and Footpaths Highlights and challenges

The condition of footpaths around the district is important to residents. Council had a target to resurface 7km of footpaths this year. Due to central government placing a higher priority on active transport, such as walking, Council was able to access additional funding via NZTA to resurface more footpaths. A total of 9.15km of footpaths were resealed across the district and has been well received by residents.

More roads were also able to be resealed than planned due to exceptionally good contract pricing. Rather than the targeted 4%, a total of 7.92% of the sealed road network was resealed.

The additional resealing work along with 66% (197 bridges) of bridges in the district upgraded to carry HPMV trucks up to 60 tonne, help ensure a robust roading network. This is a real benefit to the district's economy going forward.

Greater collaboration
within the Canterbury region
on road safety education has
enabled in depth market research on
public attitudes towards road safety. This
information will allow participant councils
to develop more targeted approaches
to road safety - both within each
district and regionally.

Capital expenditure			
- to meet additional demand	277	134	127
- to improve the level of service	3,400	4,271	4,385
- to replace existing assets	8,295	8,622	8,275
Increase (decrease) in reserves	(2,073)	(926)	(1,798)
Increase (decrease) of investments	0	0	0
Total applications of capital funding (D)	9,899	12,101	10,989
Surplus (deficit) of capital funding (C - D)	(3,985)	(5,188)	(4,705)
Funding balance ((A - B) + (C - D))	0	0	0

Note: Figures in the LTP columns agree in total, but for presentation purposes, some sources and applications of funding have been reallocated to be comparable with the 2019 actual column.

#### Payments to staff and suppliers \$1,184,000 above LTP

• Due to a significant rainfall event in November 2018, increased maintenance costs were incurred for remedial works and repairs. The additional expenditure was funded from NZTA financial assistance and the local share was funded from the Disaster Recovery reserve.

#### Financial assistance and grants for capital expenditure \$536,000 above LTP

NZTA made available funding for footpaths. This funding was not originally included in the LTP.

#### Increase / (decrease) in debt \$1,000,000 below LTP

• A loan of \$1,000,000 was budgeted to be raised for subsidised roading capital works. Due to lower expenditure incurred this financial year no actual loan is required to be raised.

#### Capital expenditure – to replace existing assets \$347,000 below LTP

• Expenditure on cyclic renewals and replacements were budgeted at \$8,622,000. Actual expenditure incurred is \$8,275,000.

#### Increase / (decrease) in reserves \$872,000 below LTP

Transfers from reserves was lower due to the timing of expenditure on project works.

# Sewer

## What we do

Our sewer services include the collection, treatment and disposal of domestic and industrial wastewater. Sewer systems are provided in the urban areas of Timaru, Temuka, Geraldine and Pleasant Point. These systems are linked via pipelines to the main wastewater treatment plant and ocean outfall in Timaru. A small collection scheme also serves the Arowhenua community which feeds into the Temuka pond for treatment. Additional sewer services are not currently available for any rural zoned areas. Rural houses manage their own effluent. Approximately 80% of the total district residential population receives the sewer service.

Timaru's
industrial wastewater
stream is treated separately
from the domestic wastewater
stream. Primary treatment is done
onsite by industries to comply with
tradewaste discharge limits set by
Council before discharging to the
public wastewater system,
and ultimately ocean

#### **Contributions to Community Outcomes**

# Sewer Highlights and challenges

Work continued on a number of sewer renewal projects throughout the District. Regular prioritised renewal helps ensure we have robust sewer infrastructure into the future. Of particular note were the sewer mains renewals completed this year in Talbot St in Geraldine and in Grey Rd/Dee St in Timaru.

Significant progress has been made on the design work for the sewer renewal 2019/2020 programme. Design work is underway for sewer renewals across the District and in particular, for the sewer siphon under the Waihi River between Geraldine town and the Geraldine oxidation ponds. Typically the pre-planning, consenting and design work are the most important aspects of renewal work and taking time to get this right makes for better outcomes.

Target times to resolve sewerage overflow fault achieved

Target:
8 hours
Achieved:
3.12 hours

Level of Service	Performance Measure	Target	Result/Achievement
Maintain excellent sewer network services	Number of dry weather overflows from the sewerage system per 1,000 connections (Mandatory)	≤2.5	Achieved 1.58 (2017/18: 1.28)
Deliver sewer services according to required environmental standards	Compliance with Resource Consent conditions - (Mandatory)	No abatement notices, infringement notices, enforcement orders and convictions	Achieved (2017/18: Achieved)
Provide management of trade waste services	Percentage of industries with trade waste agreements that have been monitored for compliance	100%	Achieved 100% (2017/18: 100%)
Maintain excellent customer service	Median attendance times to sewerage overflow faults in the network (Mandatory)	<1 hour	Achieved 0.44 hour (2017/18: 0.66 hour)
	Median resolution time (in hours) to sewerage overflow faults in the network (Mandatory)	<8 hours	Achieved 3.12 hours (2017/18: 3.11 hours)
	Number of complaints per 1,000 connections received about :	≤14	Achieved 12.29

Increase (decrease) in reserves

Increase (decrease) of investments

Total applications of capital funding (D)

Surplus (deficit) of capital funding (C - D)

#### Payments to staff and suppliers \$759,000 below LTP

• Expenditure on desludging ponds at Geraldine was budgeted at \$450,000. No actual expenditure was incurred. General maintenance costs for treatment schemes was budgeted at \$1,212,900. Actual expenditure incurred was \$887,300.

#### Finance costs \$509,000 below LTP

• The 2017-2018 budget included a loan to be raised for capital works of \$13,604,300. Due to timing of the construction of renewal works the loan was not raised resulting on less interest costs incurred.

#### Increase / (decrease) in debt \$1,620,000 below LTP

• A loan of \$1,620,000 was budgeted to be raised for sewer extensions and development works. Significant progress has been made on the design work for sewer renewals. Physical construction will be undertaken in the 2019-2020 financial year, meaning no loans were required to be raised this financial year.

#### Capital expenditure – to improve the level of service \$604,000 below LTP

• Work on the Talbot Street siphon upgrade at Geraldine was budgeted at \$600,000. Actual expenditure incurred was \$16,000 on planning and design. The project will continue in the 2019-2020 financial year.

#### Capital expenditure - to replace existing assets \$1,515,000 below LTP

As discussed above, reticulation upgrades and renewals were budgeted at \$3,616,000. Actual expenditure incurred was \$1,709,000. Projects have been re-budgeted in the 2019-2020 financial year.

#### Increase / (decrease) in reserves \$2,373,000 above LTP

Transfers to reserves were higher due to less capital project expenditure from what was budgeted.

# Stormwater

## What we do

Council is responsible for the collection, treatment and disposal of domestic and industrial stormwater. Stormwater is rainwater that flows from surfaces like roofs, footpaths and roads. Large amounts of uncontrolled stormwater can lead to flooding and damage to property and can lead to potential health hazards, so it's important it is managed properly.

Stormwater services are provided in the urban townships of Timaru, Temuka, Geraldine and Pleasant Point. Rural stormwater is managed mainly through land drainage with some minor infrastructure provided in Winchester, Cave and Pareora.

Our stormwater systems include pipelines, pump stations, culverts, channels, detention dams, retention and filtration basins. Where practicable we are making increasing use of low impact design systems that, when not used for stormwater purposes, provide open green space for people to enjoy.

#### **Contributions to Community Outcomes**

Stormwater contributes to the following Community Outcomes

High quality infrastructure to meet community and business needs

Smart, diversified economic success and growth supported and enabled Communities that are safe, vibrant and growing

People enjoying a high quality of life

A strong identiforged and promoted

A valued, healthy and accessible environment

P

Stormwater

Primary contribution

S Secondary contribution

# Stormwater Highlights and challenges

A key focus for our stormwater services is developing stormwater management plans for each stormwater catchment in line with national and regional environmental standards.

#### This year:

- A Stormwater Management Plan for the Geraldine urban area has been completed and an area stormwater discharge consent application is currently being processed by Environment Canterbury.
- The Washdyke Industrial Expansion Zone stormwater resource consent application is near the approval stage with Environment Canterbury, with final agreement on consent conditions pending.
- Background investigations reports supporting the Stormwater Management Plan process have been progressed for the Saltwater Creek catchment.

The Washdyke Flat
Road, Timaru stormwater
treatment and attenuation basin
construction commenced in February
2019. When completed this will provide
stormwater treatment and attenuation
to a portion of the existing Washdyke
stormwater catchment area prior
to discharging to Washdyke
Creek.

Level of Service	Performance Measure	Target	Result/Achievement
Maintain excellent stormwater network services	Number of flooding events for rain events up to a 1 in 5 year return for residential zones (Mandatory)	0	Achieved 0 (2017/18: 1)
	Number of flooding events for rain events up to a 1 in 10 year return for commercial and industrial zones (Mandatory)	0	Achieved 0 (2017/18: 1)
	Number of habitable floors affected by flooding events in the Timaru district, per 1000 properties connected to the stormwater system (Mandatory)	0	Achieved 0 (2017/18: 0.23)
Deliver stormwater services according to required environmental standards	Compliance with Resource Consent conditions for discharge from stormwater systems (Mandatory)	No abatement notices, infringement notices, enforcement orders and convictions	Achieved (2017/18: Achieved)
Maintain excellent customer service	Median response times to attending a flooding event (Mandatory)	<1 hour	Achieved  Zero. No flooding events recorded for 2018/19 year  (2017/18: Achieved)
	Total complaints (per 1000 connections) received about performance of stormwater system (Mandatory)	≤10	Achieved 1.14 (2017/18: 6.46)
	Percentage resident satisfaction with stormwater services	≥65%	Not measured  Surveyed biennially. Next survey in 2019/20 (2017/18: 68%)

# **Waste Minimisation**

### What we do

Through waste minimisation services, Council manages the safe and effective collection, recycling, recovery and disposal of waste materials with a focus on minimising waste.

Since 2006, the Council has operated the 3-2-1-ZERO kerbside collection in the District. This highly successful system provides 85% of the District's households with organic waste, recycling and rubbish bins which are collected regularly with materials sorted and managed at the Redruth Resource Recovery Park.

Council manages the service and owns waste minimisation sites and facilities while operational work is carried out by contractors. Waste Management New Zealand Ltd (WMNZ) is contracted until June 2021 to provide kerbside collection, transfer stations, landfill, composting and recycling operations. We also offer proactive waste minimisation information, education and support within the community.

#### **Contributions to Community Outcomes**

Waste Minimisation contributes to the following Community Outcomes

Smart, diversified economic success and growth supported and

Communities that are safe, vibrant and growing

People enjoying a high quality of life

Waste Minimisation

Р

P Primary contribution

S Secondary contribution

# Waste Minimisation Highlights and challenges

As a proactive member of the Canterbury Waste Joint Committee, Council's waste minimisation team has led four innovative projects aimed at reducing waste:

- One Planet a secondary school resource, with NCEA standards
- Waste-free period education in schools across Canterbury
- Mattress recycling pilot in Timaru
- Plastic bag collection points

Following the successful waste sort trial, design work for the construction of a waste sort facility and Stage 2 of the Resource Recovery Park was undertaken. Once up and running, customers will benefit from improved recycling facilities. The waste sort facility will divert materials from commercial waste deliveries and public waste dropped off at the transfer station, away from landfill.

ransactions

on year, with positive
feedback from the

#### Redruth Landfill challenges

- Leachate issues at the Stage 1 closed landfill developed due to unusually high rainfall causing high groundwater levels. A scheduled capital project to install a cut-off leachate drain was fast-tracked and is underway.
- High gas levels and asbestos issues were identified in the Stage 2 area, requiring remedial work. These issues will continue to be monitored on an ongoing basis.

Increase (decrease) in reserves

Funding balance ((A - B) + (C - D))

Increase (decrease) of investments

Total applications of capital funding (D)

Surplus (deficit) of capital funding (C - D)

#### Fees and charges \$481,000 above LTP

Income from fees at landfills was budgeted at \$2,860,400. Actual income received was \$3,333,600.

#### Payments to staff and suppliers \$630,000 above LTP

• Disposal costs of \$4,174,000 were incurred against a budget of \$3,494,000. The increased costs are offset by increased income received from fees and charges.

#### Increase / (decrease) in debt \$306,000 below LTP

• Due to timing of capital expenditure projects, the loan raised was lower than that budgeted.

#### Capital expenditure – to improve the level of service \$568,000 below LTP

• Capital works for the new transfer station (Stage 2) were delayed with the LTP budgeted at \$1,013,000. Actual expenditure incurred was \$418,000.

#### Increase / (decrease) in reserves \$415,000 below LTP

• Due to the timing of capital projects, transfers from reserves were lower than budgeted.

# Water supply

### What we do

Our water supply services provide for the safe and effective abstraction of water from the water source, and the treatment, storage and distribution of the water to urban and rural parts of the district.

Over 19.000 residential and non-residential properties are connected to one of 12 individual water supplies operated on behalf of the residents.

#### **Urban Water Supply Schemes**

- Geraldine
- Peel Forest
- Pleasant Point
- Temuka
- Timaru
- Winchester

#### **Rural Drinking Water and Stockwater Supply Schemes**

- Downlands
- Orari
- Seadown
- Te Moana

#### **Stockwater only Schemes**

- Beautiful Valley
- Rangitata Orari Water Race

#### **Contributions to Community Outcomes**

Water Supply contributes to the following Community Outcomes

infrastructure to

economic success and growth supported and enabled

Communities that are safe, vibrant and growing

**Water Supply**

S Secondary contribution

# Water Supply Highlights and challenges

A number of renewal and upgrade projects were completed as part of the ongoing upgrading of Council's water supply infrastructure.

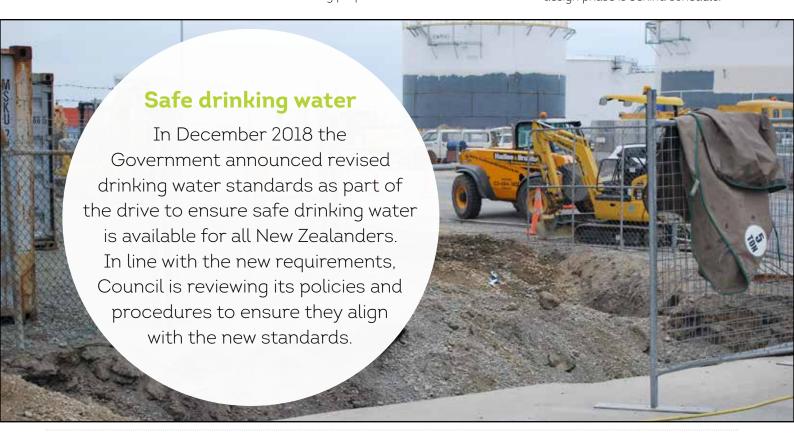

Of note were the Washdyke Flat Road watermain upgrade, and Forth Street and Dawson Street, Timaru water main renewals.

The Pleasant Point Water Supply infrastructure has had some major upgrading. Construction of the new water reservoir was completed, and the treatment plant and pump station have been upgraded.

Pleasant
Point water was
voted the Best Tasting
Water in NZ at the
2019 Water Industry
Operations Group

Several of the major water services projects have not progressed as quickly as intended, mainly due to the complexity of the projects.

- The Timaru-Pareora pipeline renewal is underway with design and consenting work progressing now that a number of complex issues are being addressed. Construction is planned to commence in 2019/20.
- Installation of the new reservoir for the Temuka Water Supply is now planned for 2019/20 due to Council not receiving any acceptable tenders. Revised tenders are now being prepared.
- The Te Moana Downs Water Supply treatment upgrade has been delayed due to the consent application process. The project will now get underway in 2019/20.
- Downlands Water Supply this multi-year project has become more complex and requires further approvals over and above those anticipated when the project was scoped. While some work was completed during the year, the design phase is behind schedule.

Level of Service	Performance Measure	Target	Result/Achievement	
Provide safe drinking water	Drinking Water Standards (Part 4) – Bacterial Compliance (Mandatory)	100% (12	Not Achieved: 10 out of 12 treatment schemes were compliant.	
		schemes)	All reticulation networks were compliant.  Downlands Cameron water treatment was not compliant as E-coli was detected after treatment following an intense rain event.	
			Pareora water treatment was non-compliant a the water safety plan expired. Operationally is achieved bacterial compliance.	
			(new format for reporting)	
	Drinking Water Standards (Part 5) – Protozoal Compliance (Mandatory)	100% (7 treatment plants)	Not Achieved: 6 out of 7 treatment schemes were compliant	
			Pareora water treatment was deemed non-compliant as the water safety plan had expired. Operationally achieved protozoa compliance.	
Maintain accellant	Percentage of real water loss from	% reduces	(new format for reporting)  Achieved 23.92%	
Maintain excellent water supply	Percentage of real water loss from TDC's networked reticulation systems (Mandatory)		(2017/18: 25%)	
network services			Percentage of water loss is arrived at through a complex calculation of variables from the characteristics of the water supply schemes. An example of the variables are quantity of water supplied and water demand.	
Maintain excellent	Median attendance time for urgent	Urban: <1 hour Rural: < 4 hours	Achieved	
customer services	callouts for water supply faults or unplanned interruptions in the network (Mandatory)		Urban: 0.51 hours	
			Rural: 0.80 hours	
			(2017/18: Urban 0.60 hour, Rural 1 hour)	
	Median <u>resolution</u> time for urgent callouts for water supply faults or unplanned interruptions in the network (Mandatory)	Urban: <4 hour Rural: < 8 hours	Achieved	
			Urban: 3.23 hours	
			Rural: 7.54 hours (2017/18: Urban 2.9 hours, Rural 7.2 hours)	
	Median <u>attendance</u> and <u>resolution</u> time (in hours) for non-urgent callouts for urban and rural water supply faults or unplanned interruptions in the network (Mandatory)	Median time to be reported	Achieved:	
			Attendance: 7 working days Resolution: 11 working days	
			This year's result will be used as a baseline and an appropriate target set for future years (2017/18: 28.3 hours)	
	Number of complaints per 1,000	<26	Achieved: 14.85	
	connections received about drinking water (mandatory)		(clarity 0.61; taste 0.61; odour 0.52; water pressure/flow 3.12; continuity of supply 9.55 TDC response 0.43)	
	Percentage user satisfaction with water supply services	≥85%	(2017/18: 47.9)	
			Not measured  Surroyad bioppially. Next surroy in 2010/20	
			Surveyed biennially. Next survey in 2019/20 (2017/18: 90%)	

Level of Service	Performance Measure	Target	Result/Achievement
Provide demand management of water supply services	Average consumption of drinking water per day per resident within the Timaru District (litres) (Mandatory)	300 litres	Nearly achieved: 310 litres (2017/18: 308 litres)
Deliver water services according to required environmental standards	Compliance with Resource Consent conditions – Water Supply	100% compliance	Nearly Achieved Compliance with all consent conditions, except the requirements for Rangitata Orari Water Race Scheme to have a management plan and fencing stock from the races. (2017/18: Nearly Achieved)

Funding balance ((A - B) + (C - D))	0	0	0

Note: Figures in the LTP columns agree in total, but for presentation purposes, some sources and applications of funding have been reallocated to be comparable with the 2019 actual column.

#### Payments to staff and suppliers \$435,000 below LTP

• Operational costs for the Urban water supply schemes was budgeted at \$2,950,000. Actual expenditure incurred was \$2,600,000.

#### Finance costs \$506,000 below LTP

• Finance costs for the Urban water supply schemes was budgeted at \$716,000. Actual expenditure incurred was \$280,000 due to more favourable interest rates from the LTP as well as less funding required to be raised in the previous financial year from what was budgeted.

#### Increase / (decrease) in debt \$11,540,000 below LTP

- A loan of \$11,572,000 was budgeted to be raised for the Timaru Pareora pipeline renewal and the Temuka treated water storage and pumps. Due to lower expenditure incurred to budget this financial year, funding required was \$2,692,000.
- A loan of \$2,150,000 was budgeted to be raised for the Te Moana water supply treatment upgrade. As a result of lower expenditure incurred for this project no funding was required to be raised this financial year.

#### Capital expenditure – to improve the level of service \$5,105,000 below LTP

- The Te Moana water supply treatment upgrade was budgeted at \$2,200,000. Actual expenditure incurred was \$104,000 relating to initial design and scoping works. The project is at the consent application stage and will continue in the 2019-2020 financial year.
- The Temuka water supply storage and pumps upgrade was budgeted at \$2,100,000. Actual expenditure incurred was \$57,000. The Council did not receive any acceptable tenders and is revising the tender requirements. The project will be progress in the 2019-2020 financial year.
- Upgrade of the supply from Geraldine to Te Moana water supply schemes was budgeted at \$364,000. No actual expenditure was incurred and the project will now commence in the 2020-2021 financial year.
- The Seadown water supply water storage and treatment upgrade was budgeted at \$460,000. Actual expenditure incurred was \$22,000. Design and consenting work is progressing and the project will be completed in the 2019-2020 financial year.

#### Capital expenditure – to replace existing assets \$10,336,000 below LTP

• The Timaru – Pareora pipeline renewal was budgeted at \$10,480,000. Actual expenditure incurred was \$105,000. The project design and consenting is progressing now that a number of complex issues are being addressed. Construction will start in the 2019-2020 financial year.

#### Increase / (decrease) in reserves \$5,054,000 above LTP

• Transfer to reserves was higher due to less capital project expenditure than budgeted.

Surplus (deficit) of capital funding (C - D)

Downlands are undertaking a large multi-year project. Planning processes are more complex than expected with more approvals required than initially scoped. The variances below relate to more time being spent on the design phase before work starts.

#### Increase / (decrease) in debt \$3,726,000 below LTP

• A development loan was budgeted to be raised for capital project works. Due to lower actual expenditure being incurred no loan was required to be raised.

#### Capital expenditure - to improve the level of service \$1,476,000 below LTP

• Upgrades to the Opihi River crossing pipeline and raw water storage was budgeted at \$1,476,000. No actual expenditure has been incurred this financial year.

#### Capital expenditure – to replace existing assets \$3,393,000 below LTP

• Renewals of the Te Ngawai infiltration gallery and low lift pump and mains, tanks and intakes was budgeted at \$3,772,000. Actual expenditure incurred was \$365,000. Works have been re-budgeted in the 2019-2020 financial year.

#### Increase / (decrease) in reserves \$1,257,000 above LTP

· Transfer to reserves was higher due to less capital project expenditure from what was budgeted.

# Financial Reporting

#### Section Overview

This section outlines the financial results of Council activities for 2018/19. It includes:

#### **Statement of Comprehensive Revenue and Expense**

This can also be referred to as the Profit and Loss Statement, the Income Statement, or the Operating Statement. It shows the financial results of all Timaru District Council activities at the end of each period as either a surplus or deficit. It does not include asset purchases or disposals.

#### **Statement of Changes in Equity**

Equity is the residual interest in the assets of Timaru District Council after the deduction of its liabilities. This statement shows movement in that interest.

#### **Statement of Financial Position**

This shows the financial state of affairs at a particular time. It can also be referred to as the Balance Sheet.

#### **Statement of Cashflows**

This describes the cash effect of transactions and is broken down into three components: operating, investing and financing activities.

#### **Funding Impact Statement**

The Funding Impact Statement sets out the sources of operating and capital funding Council will use to fund its activities.

#### **Council Controlled Organisations**

Reports against the Council's CCO's policies, objectives, activities and performance targets.

#### **Notes to the Financial Statements**

The notes contain additional information to facilitate greater understanding of the main financial statements, outlined above.

#### **Disclosure Statement**

The purpose of this statement is to disclose the council's financial performance in relation to various benchmarks to enable the assessment of whether the council is prudently managing its revenues, expenses, assets, liabilities, and general financial dealings.

Note: The Funding Impact statement is required under the Local Government Act 2002 Schedule 10 and conforms to the Local Government (Financial Reporting)

Regulations 2014. General accepted accounting practice does not apply to the preparation of the funding impact statement as stated in S111(2) of the Local Government

Figures in the LTP columns agree in total, but for presentation purposes, some sources and applications of funding have been reallocated to be comparable with the 2019 actual column.

# Statement of Financial Involvement in Council Controlled Organisations

#### Timaru District Council has control over the following entities:

- Timaru District Holdings Limited
- Aoraki Development and Promotions Limited
- Aorangi Stadium Trust

Timaru District Holdings Limited has a significant interest in PrimePort Timaru Limited and Alpine Energy Limited. Advances to subsidiaries includes loans to Timaru District Holdings Limited of \$22.2M on normal commercial terms (2018: \$22.2M).

The cost to each of the above enterprises for the financial interests, finance or financial assistance of the Council is as follows:

	Dividends 2018/19 \$000	Interest 2018/19 \$000	Total 2018/19 \$000
Subsidiaries			
Timaru District Holdings Limited	32,750	727	33,477
Aoraki Development and Promotions Limited	0	0	0
	32,750	727	33,477
Associates			
Alpine Energy Limited	0	0	0
PrimePort Timaru Limited	0	0	0
Total	32,750	727	33,477

# **Timaru District Holdings Limited (TDHL) and subsidiaries**

Timaru District Holdings Limited was formed in October 1997 with the prime objective of providing an improved level of governance on behalf of the Council in respect of investment in various companies.

#### Mission Statement

To be a successful and growing business increasing the value of the Company and its return to its shareholder, while taking into account the special needs of the shareholder.

#### Nature and Scope of Activities

TDHL's business is that of an investor in companies in which Council has a substantial interest; specifically Alpine Energy Limited – 47.5% shareholding and PrimePort Timaru Limited – 50.0% shareholding. TDHL also owns a portfolio of investment properties.

#### Performance Measures and Targets

TDHL oversees the governance of Alpine Energy Limited and PrimePort Timaru Limited through monitoring the individual company's compliance with its Statement of Corporate Intent, regular monthly reporting against the company's budgets and meetings between representatives of the companies and TDHL at both Board and Officer level.

#### Taxable Bonus Share Issue

\*TDHL declared a bonus share issue of \$30M to Council on 29 June 2019. This reduced the performance measures (below) showing some are not met. The adjustment column shows all performance measures have been met after adjusting for the share issue.

Performance targets (Parent)	2018/19 Target		
Net profit after tax to shareholders funds	9.2%	12.5%	12.5%
Net assets per fully paid share	\$62.29	\$2.39	\$74.02
Earnings per fully paid share	\$5.74	\$0.30	\$9.23
Dividend per fully paid share	\$2.75	\$1.06	\$2.75
Shareholders funds to total assets	65.1%	66.3%	66.3%

# Statement of Financial Involvement in Council Controlled Organisations

#### **Aoraki Development and Promotions Limited**

Aoraki Development and Promotions Limited (trading as Aoraki Development) is a Council Controlled Organisation focused on regional economic development. It is 100% controlled by the Timaru District Council.

#### Vision:

#### Innovative, Thriving and Connected Heartland

#### Major Achievements

Several new initiatives were launched during the year including:

- Delivering a Ministry of Social Development contract focused on transitioning secondary school students into the workforce by "Exposing Educating & Exciting" our next generation on their important next move.
- Facilitating events designed to help link secondary school students with prospective employers and further education opportunities. Over 5,700 individual interactions between local students and businesses across business visits, employment expos, individual student mentoring and sector information events.
- Facilitating enhanced collaboration and trust between a variety of local industry sectors such as Food Processing & Manufacturing, Trades and Transport & Logistics via Business Connections Groups. This has resulted in best practice sharing within and between industry sectors across health & safety, training, systems and procedures, staff attraction and career pathway promotion into secondary schools.

## **Aorangi Stadium Trust**

Aorangi Stadium Trust is incorporated in New Zealand under the Charitable Trusts Act 1957. The Trust is controlled by Timaru District Council and is a Council Controlled Organisation.

*Objectives:* To continue development, maintenance and operation of the Aorangi Stadium and adjoining areas on Aorangi Park, Timaru for the use of the public.

**Structure:** The Trust comprises a board of four Trustees who oversee the governance of the Trust. The facility is leased to Timaru District Council who manage the facility and undertake administration for the Trust.

#### **Key Objectives**

- Assist businesses to attract and retain a skilled workforce
- Encouraging innovation and facilitating the growth of existing business
- Creating an environment to attract and assist new business
- Launch of the WeloveTimaru workforce attraction campaign via national billboards, social media, and other mediums including mobile advertising on transport operator vehicles.
   Feedback from local businesses notes that the campaign has been a key influencer in attracting several new employees and their families to the district.
- Facilitating local Transport and Logistics companies to develop, implement and lead a new locally provided Transport and Logistics Course
- Launched a Sustainable is Attainable Project involving nearly 20 businesses from the Food Processing and Manufacturing centre collaboratively addressing their waste and by-product issues – a national first involving so many companies.
- Facilitating the establishment of new businesses in the district, including a database of available Industrial land, relationship building, advocacy and promotion.

Full details can be found in the Aoraki Development Statement of Service Performance 2018/2019.

## Performance:

- Target: Ratio of equity to total assets remains above 90% Result: Achieved 97.99%
- Target: Audited annual report completed within 3 months of the financial year end

Result: Met

- Target: Promote ongoing development and maintenance of Aorangi Sports Stadium on Morgans Road Reserve Result: Met
- Target: Regular liaison occurs with the tenant (Timaru District Council) on at least a six monthly basis.

Result: Met

for the year ended 30 June 2019

# 1. Statement of Accounting Policies for the year ended 30 June 2019

# Reporting entity

Timaru District Council (the Council) is a territorial local authority governed by the Local Government Act 2002 (LGA) and is domiciled and operates in New Zealand. The relevant legislation governing the Council's operations includes the LGA and the Local Government (Rating) Act 2002.

The group consists of the ultimate parent, Timaru District Council, and it subsidiaries Timaru District Holdings Ltd (100% owned), Aoraki Development and Promotions Ltd (100% owned), Aorangi Stadium Trust (100% controlled) and Downlands Water Supply (82% owned). Timaru District Holdings Ltd has associate companies PrimePort Timaru Ltd (50% owned) and Alpine Energy Ltd (47.5% owned). All of these entities are incorporated and domiciled in New Zealand.

The primary objective of the Council is to provide infrastructure and public services for the community for social benefit rather than making a financial return. Accordingly, the Council has designated itself and the group as public benefit entities for financial reporting purposes.

The financial statements of the Council and group are for the year ended 30 June 2019. The financial statements were authorised for issue by the Council on 8 October 2019.

#### Basis of preparation

The financial statements have been prepared on the going concern basis, and the accounting policies have been applied consistently throughout the period.

# Statement of Compliance

The financial statements of the Council and group have been prepared in accordance with the requirements of the LGA: sections 95, 100, 101, 111 and Schedule 10 which include the requirement to comply with Generally Accepted Accounting Practice in New Zealand (NZ GAAP).

The financial statements have been prepared in accordance with Tier 1 Public Benefit Entity Accounting (PBE) Standards. These financial statements comply with PBE standards

# Presentational Currency and Rounding

These financial statements are presented in New Zealand dollars and all rounded to the nearest thousand dollars (\$'000). The functional currency of the Council is New Zealand dollars.

# Standards Issued and Not Yet Effective and Not Early Adopted

Standards and amendments, issued but not yet effective that have not been early adopted, and which are relevant to the Council and group are:

#### Interests on other entities

In January 2017, the XRB issued new standards for interests in other entities (PBE IPSAS 34-38). These new standards replace the existing standards for interests in other entities (PBE IPSAS 6-8). The new standards replace the existing standards for interests in other entities (PBE IPSAS 6-8). The new standards are effective for annual periods beginning on or after 1 January 2019, with early adoption permitted.

The Council plans to apply the new standards in preparing the 30 June 2020 financial statements. The Council and group has not yet assessed the effects of these new standards.

#### Financial Instruments

In January 2017, the XRB issued PBE IFRS 9 Financial Instruments. PBE IFRS 9 replaces PBE IPSAS 29 Financial Instruments: Recognition and Measurement. PBE IFRS 9 is effective for annual periods beginning on or after 1 January 2021, with early application permitted. The main changes under PBE IFRS 9 are:

- New financial asset classification requirements for determining whether an asset is measured at fair value or amortised cost.
- A new impairment model for financial assets based on expected losses, which may result in the earlier recognition of impairment losses.
- Revised hedge accounting requirement to better reflect the management of risks.

The Council plans to apply this standard in preparing its 30 June 2022 financial statements. The Council and group has not yet assessed the effects of the new standards.

# Basis of consolidation

The consolidated financial statements are prepared by adding together like items of assets, liabilities, equity, revenue, and expenses of entities in the group on a line-by-line basis. All intragroup balances, transactions, revenues, and expenses are eliminated on consolidation.

#### Subsidiaries

The Council consolidates in the group financial statements all entities where the Council has the capacity to control their financing and operating policies so as to obtain benefits from the activities of the subsidiary. This power exists where the Council controls the majority voting power on the governing body or where such policies have been irreversibly predetermined by the Council or where the determination of such policies is unable to materially affect the level of potential ownership benefits that arise from the activities of the subsidiary.

# for the year ended 30 June 2019

The Council's investments in subsidiaries are carried at cost in the Council's parent entity financial statements.

#### **Associates**

The group's associate investment is accounted for in the group financial statements using the equity method. An associate is an entity over which the Council or group has significant influence and that is neither a subsidiary nor an interest in a joint venture. The investment in an associate is initially recognised at cost and the carrying amount in the group financial statements is increased or decreased to recognise the group's share of the surplus or deficit of the associate after the date of acquisition. Distributions received from an associate reduce the carrying amount of the investment in the group financial statements.

If the share of deficits of an associate equals or exceeds its interest in the associate, the group discontinues recognising its share of further deficits. After the group's interest is reduced to zero, additional deficits are provided for, and a liability is recognised, only to the extent that the Council has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports surpluses, the group will resume recognising its share of those surpluses only after its share of the surpluses equals the share of deficits not recognised.

Where the group transacts with an associate, surpluses or deficits are eliminated to the extent of the group's interest in the associate.

Dilution gains or losses arising from investments in associates are recognised in the surplus or deficit.

The investment in the associate is carried at cost in the Council's parent entity financial statements.

#### Joint Venture

A joint venture is a binding arrangement whereby two or more parties are committed to undertake an activity that is subject to joint control. Joint control is the agreed sharing of control over an activity.

For jointly controlled operations, the Council and group recognises in its financial statements the assets it controls, the liabilities and expenses it incurs, and the share of revenue that it earns from the joint venture.

#### Revenue Recognition

Revenue is measured at fair value.

The specific accounting policies for significant revenue items are explained below:

# Rates Revenue

The following policies for rates have been applied:

General rates, targeted rates (excluding water-by-meter),

and uniform annual general charges are recognised at the start of the financial year to which the rates resolution relates. They are recognised at the amounts due. The Council considers the effect of payment of rates by instalments is not sufficient to require discounting of rates receivables and subsequent recognition of interest revenue.

- Rates arising from late payment penalties are recognised as revenue when rates become overdue.
- Revenue from water-by-meter rates is recognised on an accrual basis based on usage. Unbilled usage, as a result of unread meters at year end, is accrued on an average usage basis.
- Rate remissions are recognised as a reduction of rates revenue when the Council has received an application that satisfies its rates remission policy.
- Rates collected on behalf of Environment Canterbury are not recognised in the financial statements, as the Council is acting as an agent for Environment Canterbury.

#### Vested Assets

Certain infrastructural assets have been vested to the Council as part of the subdivisional consent process. Such vested assets are recognised as revenue when the significant risks and rewards of ownership have been transferred to the Council and when the obligation to accept the transfer of the assets to the Council has been determined. Vested infrastructural assets have been valued based on the actual quantities of infrastructural components vested and the current "in the ground" cost of providing the identical services.

Other grants, bequests and assets vested in Council, irrespective of the conditions attached to vesting, are recognised as revenue when control over the assets is obtained.

#### **New Zealand Transport Agency roading subsidies**

The Council receives funding assistance from the New Zealand Transport Agency, which subsidises part of the costs of maintenance and capital expenditure on the local roading infrastructure. The subsidies are recognised as revenue upon entitlement, as conditions pertaining to eligible expenditure have been fulfilled.

#### Interest

Interest revenue is recognised using the effective interest method.

#### Dividends

Dividends are recognised when the shareholders' rights to receive payment have been established.

# **Agency Revenue**

Where revenue is derived by acting as an agent for another

#### for the year ended 30 June 2019

party, the revenue that is recognised is the commission or fee on the transaction.

## **Borrowing Costs**

Borrowing costs are recognised as an expense in the period in which they are incurred.

# Foreign currency transactions

Transactions in foreign currencies are converted at the New Zealand rate of exchange ruling at the date of the transaction. Transactions covered by foreign currency forward exchange contracts are measured and reported at the forward rates specified in those contracts.

At balance sheet date foreign monetary assets and liabilities are translated at the closing rate, and exchange variations arising from these transactions are included in the surplus or deficit.

#### Income Tax

The tax expense represents the sum of the tax currently payable and deferred tax.

Current taxation is the amount of income tax payable based on the taxable profit for the current year, plus any adjustments to income tax payable in respect of prior years. Current tax is calculated using rates that have been enacted at balance sheet date.

Deferred tax is the amount of income tax payable or recoverable in future periods in respect of temporary differences. Deferred tax liabilities are generally recognised for all temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised.

Current tax and deferred tax is recognised against the surplus or deficit, except when it relates to items charged or credited directly to equity or other comprehensive revenue or expense, in which case the deferred tax is also dealt with in equity or other comprehensive revenue or expense respectively.

# Leases

Leases in which substantially all of the risks and rewards of ownership transfer to the lessee are classified as finance leases. At inception, finance leases are recognised as assets and liabilities on the Statement of Financial Position at the lower of the fair value of the leased asset and the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the

lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Any additional direct costs of the lessee are added to the amount recognised as an asset. Subsequently assets leased under a finance lease are depreciated as if the assets are owned.

Payments made under operating leases are recognised in the surplus or deficit on a straight-line basis over the term of the lease.

## Cash And Cash Equivalents

Cash and cash equivalents means cash balances on hand, held in bank accounts, demand deposits and other highly liquid investments in which the Council invests as part of its day-to-day cash management.

Bank overdrafts are shown with borrowings in current liabilities in the statement of financial position.

#### Trade and other receivables

Trade and other receivables are initially measured at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment.

Loans, including loans to community organisations made by Council at below-market interest rates are initially recognised at the present value of their expected cash flows, discounted at the current market rate of return for a similar asset/ investment. They are subsequently measured at amortised cost using the effective interest method. The difference between the face value and present value of expected future cash flows of the loan is recognised in the surplus or deficit.

A provision for impairment of receivables is established when there is objective evidence that the Council will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying value and the present value of estimated future cash flows, discounted using the effective interest method.

#### Financial instruments

The Council is risk averse, and seeks to minimise exposure arising from its treasury activity.

The Council uses derivative financial instruments to manage its exposure to interest rate risks. In accordance with the Investment Policy and Liability Management Policy, the Council does not hold or issue derivative financial instruments for trading purposes. Derivative financial instruments are recognised initially at fair value. Subsequent to initial recognition, derivative financial instruments are stated at fair value with the gain or loss on re-measurement to fair value recognised immediately in the surplus or deficit. The fair value of interest rate swaps is the estimated amount

# for the year ended 30 June 2019

that the Council would receive or pay to terminate the swap at balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparties.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition.

#### Investments

Management determines the classification of its investments at initial recognition and re-evaluates this designation at every reporting date. The classification depends on the purpose for which the investments were acquired.

#### **Term Deposits**

Term Deposits are classified as Loans and Receivables and measured at amortised cost.

### Investments in debt and quoted equity securities

Investments in debt and quoted equity securities are financial instruments classified as held for trading and are measured at fair value at balance sheet date. Any resultant gains or losses are recognised in the surplus or deficit for the period.

#### Investment in Subsidiaries

Investment in Subsidiaries are included in the parent entity at cost less any impairment losses.

# Community loans

Community loans at subsidised interest rates are fair valued on initial recognition based on the present value of all future cash receipts discounted using the prevailing market rate for similar instruments. The resulting loss on initial recognition is taken to the surplus or deficit. In subsequent periods this loss is amortised back through the surplus or deficit.

#### Other – Investments (Unquoted equity investments)

Other investments held by the Council are classified as being available-for-sale and are stated at lower of cost and net realisable value, with any resultant gain or loss being recognised directly in equity, except for impairment losses. When these investments are derecognised, the cumulative gain or loss previously recognised directly in equity is recognised through the surplus or deficit.

#### Non Current Assets Held For Sale

Non current assets are classified as held for sale if their carrying amount will be recovered through a sale transaction

rather than through continuing use. This condition is only met when the sale is highly probable and the asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non current assets classified as held for sale are measured at the lower of the asset's previous carrying amount and fair value less costs to sell.

Non current assets are not depreciated or amortised while they are classified as held for sale.

# Property, Plant & Equipment – Valuation

Timaru District Council has the following classes of Property, Plant and Equipment:

- Operational assets
  - Council related Land
  - Council Buildings and Building Improvements
  - Airport Improvements
  - Parks and Pools Plant and Equipment
  - Plant and Equipment, including Motor Vehicles
  - Furniture and Office Equipment
  - Library Books
  - Art Works
- Infrastructure assets
  - Sewer, stormwater, water
  - Roads, bridges and lighting
  - Land under roads

Infrastructure assets are the fixed utility systems owned by the Council.

- Heritage assets
- Restricted assets Restricted assets are parks and reserves owned by the Council, which provide a benefit or service to the community and cannot be disposed of because of legal or other restrictions.

#### Council Land

Land, other than airport land, has been stated at its deemed cost, which is fair value as valued by I Fairbrother ANZIV of QV Valuations as at 1 July 2005.

Airport land has been stated at its deemed cost, which is fair value as valued by B Dench ANZIV of QV Valuations as at 1 July 2005.

Acquisitions subsequent to 1 July 2005 are at cost.

**Council Buildings and Building improvements**Buildings and Building Improvements, have been stated

# for the year ended 30 June 2019

at their deemed cost, which is fair value as valued by I Fairbrother ANZIV of QV Valuations as at 1 July 2005.

Acquisitions subsequent to 1 July 2005 are at cost.

#### Airport improvements

Airport improvements, including runway, have been stated at their deemed cost, which is Optimised Depreciated Replacement Cost as valued by B Dench ANZIV of QV Valuations as at 1 July 2005.

Acquisitions subsequent to 1 July 2005 are at cost.

#### Parks and Pools plant and equipment

Parks and Pools plant and equipment assets, are stated at their deemed cost which is optimised depreciated replacement cost valued as at 1 July 2005 by Maunsell Limited, valuers.

Acquisitions subsequent to 1 July 2005 are at cost.

## Plant and Equipment (including motor vehicles)

Plant and Equipment (including motor vehicles) are at cost less provision for depreciation.

# Furniture and Office Equipment

Furniture and Office Equipment have been stated at their deemed cost which is the assessed fair value at 1 July 2005 based on the 1 July 1993 indemnity value by Morton & Co Limited, valuers, and acquisitions 1 July 1993 to 1 July 2005 at cost.

Acquisitions subsequent to 1 July 2005 are at cost.

#### Library books

The Timaru District Library, Temuka Library and Geraldine Library collections have been revalued as at 30 June 2019 at depreciated replacement cost calculated by the District Librarian in accordance with the library collection valuation guidelines prepared by the New Zealand Library Association in May 1992.

The Library collections are revalued on an annual basis.

#### Art Works

Art Works are stated at their deemed cost which is the assessed fair value at 1 July 2005 based on the 1 April 1992 insurance value by the Art Gallery Director, and acquisitions 1 April 1992 to 1 July 2005 at cost.

Acquisitions subsequent to 1 July 2005 are at cost.

#### Sewer, Stormwater, Water

Sewer, stormwater and water assets, are stated at their deemed cost which is optimised depreciated replacement cost valued as at 1 July 2005 by Maunsell Limited, valuers.

Acquisitions subsequent to 1 July 2005 are at cost.

Roads, Bridges and Lighting

Roads, bridges and lighting are stated at their deemed cost which is optimised depreciated replacement cost valued as at 1 July 2005 by Maunsell Limited, valuers.

Acquisitions subsequent to 1 July 2005 are at cost.

#### Land under Roads

Land under roads has been stated at their deemed cost which is at an average of adjacent "undeveloped land value" valued as at 1 July 2005 by Maunsell Limited.

Acquisitions subsequent to 1 July 2005 are at cost.

#### Heritage Assets

Significant statues are stated at their deemed cost which is optimised depreciated replacement cost valued as at 1 July 2005 by Maunsell Limited, valuers. Other heritage type assets such as museum exhibits have not been valued.

Acquisitions subsequent to 1 July 2005 are at cost.

## Property, Plant & Equipment - Depreciation

Depreciation is provided on a basis that will write off the cost or valuation of the assets, other than land, less their estimated residual values over their estimated useful lives.

Depreciation has been provided at the following rates.

Council related Land	Nil
Council Buildings and Building improvements	1-30% Straight Line
Airport Improvements	2-50% Straight Line
Parks and pools plant and equipment	2-33% Diminishing Value
Plant and Equipment	10-50% Diminishing Value
Motor Vehicles	5-25% Diminishing Value
Furniture and Office Equipment	20-50% Diminishing Value
Library Collections	0-12.5% Straight Line (0% permanent retention collection, 12.5% current collection)
Art Works	Nil
Water	1-33% Straight Line
Sewerage	1-6% Straight Line
Stormwater	1-4% Straight Line
Roading	1-50% Straight Line
Bridges	1-3% Straight Line
Lighting	6-8% Straight Line
Land under Road	Nil
Heritage assets	1-7% Straight Line

# Capital Work In Progress

Capital works in progress are not depreciated. The total cost of a project is transferred to the relevant asset class on completion and then depreciated.

# for the year ended 30 June 2019

## Intangible Assets

Acquired computer software licences are capitalised on the basis of costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives. The useful lives and associated amortisation rates of software has been estimated at 3 - 5 years (20% - 33%).

Costs associated with developing or maintaining software programmes are recognised as an expense when incurred.

Purchased carbon credits are recognised at cost on acquisition. They are not amortised, but are instead tested for impairment annually. They are derecognised when they are used to satisfy carbon emission obligations.

# Impairment

The carrying amount of the non current assets, other than investment property and deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the surplus or deficit.

# Forestry Assets

Forestry Assets are valued annually as at 30 June at fair value less estimated point of sale costs. Fair value is determined by the estimated worth of the maturing tree stocks in the Council's forests. The valuation method adopted is based on cash flows on a single rotation basis discounted at a market based pre-tax rate. The changes in fair value of the Forestry Assets are included in the surplus or deficit.

The costs to maintain the forestry assets are included in the surplus or deficit when incurred.

#### Landfill Assets

Landfill assets being earthworks, plant and machinery and the estimate of site restoration, are stated at cost less any accumulated depreciation and any accumulated impairment losses. The useful life of the landfill is considered to be the period of time to the expiring of the resource consent in 2030 or the estimated full date.

# **Investment Property**

Investment properties are properties which are held either to earn rental income or for capital appreciation or both. Investment properties are stated at fair value as determined annually by independent valuers with any gain or loss arising from a change in fair value being recognised in the surplus or deficit.

#### Loans

Loans are classified as other liabilities and are recognised initially at fair value plus attributable transaction costs. Subsequent to initial recognition, loans are stated at amortised cost with any difference between fair value at acquisition and maturity value being recognised in the surplus or deficit over the period of the borrowings on an effective interest basis.

# **Employee Entitlements**

Entitlements to salary and wages and annual leave are recognised when they accrue to employees. Provision is made in respect of the Council's liability for annual leave, long service leave, retirement gratuities and sick leave. Council accrued retiring gratuities and accrued long service leave are calculated based on an actuarial valuation using current rates of pay taking into account years of service, years to entitlement and the likelihood staff will reach the point of entitlement. Annual leave entitlements have been calculated on an actual entitlement basis at current rates of pay. Sick leave entitlements are measured as the amount of unused entitlement accumulated at balance sheet date that the Council anticipates employees will use in future periods, in excess of the days that they will be entitled to in each of those periods. Obligations for contributions to Kiwisaver and superannuation schemes are recognised as an expense in the surplus or deficit when incurred. All employer superannuation contributions are made to defined contribution schemes.

#### Provision For Landfill Post Closure Costs

A provision for post-closure costs is recognised as a liability when the obligation for post-closure arises.

The provision is measured based on the present value of the future cashflows expected to be incurred, taking into account future events including new legal requirements and known improvements in technology. The provision includes all costs associated with landfill post-closure.

Amounts provided for landfill post-closure are capitalised to the landfill asset where they give rise to future economic benefits to be obtained. Components of the capitalised landfill asset are depreciated over their useful lives.

The discount rate used is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the Council.

#### Equity & Reserves

Equity is the community's interest in the Council and is measured as the difference between total assets and total liabilities. Public equity is disaggregated and classed into a number of reserves to enable clearer identification of the specified uses that the Council makes of its accumulated surpluses. The components of equity are:

# for the year ended 30 June 2019

- Retained Earnings
- Restricted Reserves
  - Special Funds

Restricted reserves are a component of equity generally representing a particular use to which various parts of equity have been assigned. Reserves may be legally restricted or created by the Council.

Restricted Reserves are those reserves subject to specific conditions accepted as binding by the Council and which may not be revised by the Council without reference to the Courts or to a third party. Transfers from these reserves may be made only for certain specified purposes or when certain specified conditions are met.

Also included in restricted reserves are reserves restricted by Council decision. The Council may alter them without reference to any third party or the Courts. Transfers to and from these reserves are at the discretion of the Council.

#### Goods & Services Tax

These financial statements have been prepared on a GST exclusive basis with the exception of Accounts Receivable and Accounts Payable, which are stated on a GST inclusive basis. When GST is not recoverable as an input tax then it is recognised as part of the related asset or expense.

The net amount of GST paid to, or received from the Inland Revenue Department (IRD) is included as part of receivables or payables in the Statement of Financial Position.

# **Budget Figures**

The budget figures are those approved by Council at the beginning of the year after a period of consultation with the public as part of the Annual Plan and Long Term Plan process. The budget figures have been prepared in accordance with generally accepted accounting practice and are consistent with the accounting policies adopted by the Council for the preparation of the financial statements.

### Overhead Allocation

The Council has derived the net cost of services for each significant activity of the Council using the cost allocation system outlined below. This involves the cost of internal service type activities being allocated to the external service type activities. External activities are those which provide a service to the public and internal activities are those which provide support to the external activities.

#### Cost allocation policy

Direct costs are charged directly to significant activities. Indirect costs are charged to significant activities based on cost drivers and related activity/usage information.

#### Criteria for direct and indirect costs

'Direct' costs are those costs directly attributable to a significant activity. 'Indirect' costs are those costs which cannot be identified in an economically feasible manner with a specific significant activity.

#### Cost drivers for allocation of indirect costs

The costs of internal services not directly charged to activities are allocated based on the services provided. This is allocated based on a historical costing analysis which utilised a number of cost drivers, including staff numbers, area and transaction volumes.

#### **Internal Charges**

Are eliminated at the Council level.

# Critical Accounting Estimates And Assumptions

In preparing these financial statements, estimates and assumptions have been made concerning the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations or future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Note 25 provides information about the estimates and assumptions surrounding the landfill aftercare provision.

Note 17 includes information associated with the valuation of assets and the use of deemed cost

## Statement of Cashflows

Cash and cash equivalents means cash balances on hand, held in bank accounts, demand deposits and other highly liquid investments in which the Council invests as part of its day-to-day cash management.

Operating activities include cash received from all revenue sources of the Council, and expenditure payments made for the supply of goods and services. Agency transactions such as collection of regional council rates are not recognised as receipts and payments in the Statement of Cash Flows.

Investing activities are those activities relating to the acquisition and disposal of current and non-current securities, and any non-current assets.

Financing activities are those activities relating to the changes in equity, and debt structure of the Council.

# for the year ended 30 June 2019

# 2. Summary Revenue and Expenditure for Group of Activities

	Council

General rates	26,206	24,642
Targeted rates attributable to activities		
Water, excluding targeted water supply rates	7,504	7,045
Sewerage	7,174	7,130
Solid Waste	5,418	5,243
Community Works and Services	3,652	2,926
Rates Penalties	468	541
Total revenue from rates, excluding targeted water supply rates	50,421	47,527

#### for the year ended 30 June 2019

The Council is required by the LGFA Guarantee and Indemnity Deed to disclose in its financial statements (or notes) it annual rates revenue. That Deed defines annual rates revenue as an amount equal to the total revenue from any funding mechanism authorised by the Local Government (Rating) Act 2002 together with any revenue received by the Council from other local authorities for services provided by that Council for which those other Local Authorities rate. The annual rates revenue of the Council for the year ended 30 June 2019 for the purpose of the LGFA Guarantee and Indemnity Deed disclosure is shown below:

Rates, excluding targeted water supply rates
Targeted water supply rates

Receivables from exchange transactions - this includes outstanding amounts for commercial sales and fees and charges that have not been subsidised by rates	2,966	1,335		4,999	3,468	
	6,740	5,651		7,974	7,048	

#### for the year ended 30 June 2019

#### Fair value

Debtors and other receivables are non-interest bearing and receipt is normally on 30 days terms, therefore their carrying value approximates their fair value.

#### *Impairment*

As at 30 June 2019 and 2018, all overdue receivables have been assessed for impairment and appropriate provisions applied. Timaru District Council does not hold collateral as security or other credit enhancements over receivables that are either past due or impaired.

Timaru District Council has various powers under the Local Government (Rating) Act 2002 to recover any outstanding debt arising from rates. Ratepayers can apply for payment plan options in special circumstances. Where such repayment plans are in place, debts are discounted to their present value of future payments if the impact of discounting is material.

The carrying amount of receivables that would otherwise be past due or impaired, whose terms have been renegotiated is \$41,057 (2018: \$27,515).

The status of receivables (excluding rates) as at 30 June are detailed below:

	2019				2018	
	Gross \$000	Impairment \$000	Net \$000	Gross \$000	Impairment \$000	Net \$000
Council						
Not past due	5,415	0	5,415	4,140	0	4,140
Past due 1 - 60 days	276	(11)	265	338	(10)	328
Past due 61 - 120 days	49	(24)	25	72	(5)	67
Past due > 120 days	128	(45)	83	90	(34)	56
Total	5,868	(80)	5,788	4,640	(49)	4,591
Group						
Not past due	6,649	0	6,649	5,499	0	5,499
Past due 1 - 60 days	276	(11)	265	364	(10)	354
Past due 61 - 120 days	49	(24)	25	84	(5)	79
Past due > 120 days	128	(45)	83	90	(34)	56
Total	7,102	(80)	7,022	6,037	(49)	5,988

The status of rates receivables as at 30 June are detailed below:

		2019			2018	
	Gross \$000				Impairment \$000	Net \$000
Council						
Not past due	843	0	843	961	0	961
Past due 1 year	43	0	43	69	0	69
Past due 2 years	38	0	38	22	0	22
Past due 3 years	34	(5)	29	7	(5)	2
Past due > 3 years	47	(47)	0	47	(43)	4
Total	1,005	(52)	953	1,106	(48)	1,058

The impairment provision has been calculated based on the expected losses for Timaru District Council's pool of debtors. Expected losses have been determined based on an analysis of Timaru District Council's losses in previous periods, and a review of specific debtors.

Movement in the provision for impairment of receivables are as follows:

# for the year ended 30 June 2019

	Cou	Council		Group

#### for the year ended 30 June 2019

#### Fair Value

Short term deposits

The carrying amount of short term deposits approximates their fair value.

#### Community loans

The fair value of community loans is \$501,596 (2018: \$564,000). Fair value has been determined using cash flows discounted at a rate based on the loan recipients risk factors of 10.0% (2018: 10.0%).

The face value of community loans is \$566,376 (2018: \$753,085).

#### Movements in the carrying value of community loans are as follows:

At 1 July
Amount of new loans granted during the year
Fair value adjustment on initial recognition
Loans repaid during the year (principal and interest)
Impairment loss recognised during the year
Unwind of discount and interest charged
At 30 June

#### Investments in debt securities

The fair value of investments in debt securities is \$3,108,010 (2018: \$3,786,889). Fair value has been determined based on current market values using yields of between 2.13% and 2.96% (2018: 2.34% and 4.02%).

#### Loans to related parties

The carrying amount of loans to related parties approximates their fair value as the interest rate is repriced to the current market interest rate each quarter.

#### **Impairment**

There were no impairment provisions for other financial assets. None of the financial assets are either past due or impaired.

#### 16. Derivative Financial Instruments

### Current liability portion

Interest rate swaps

#### Non-current liability portion

The notional principal amounts of the outstanding interest rate swap contracts at 30 June 2019 were \$57,900,000 (2018: \$57,900,000). Maturity dates range from June 2020 to April 2025.

At 30 June 2019, the interest rates for interest rate swaps vary from 0.97% to 6.82% (2018: 0.97% to 6.82%).

The fair value of interest rate swaps have been determined by calculating the expected cashflows under the terms of the swaps and discounting these values to present value.

# for the year ended 30 June 2019

# 17. Property, plant and equipment

#### Insurance on Assets

The following information relates to the insurance of Council assets as at 30 June:

2018				
Water:				
- treatment plants and facilities	7,366	0	0	0
- other assets (such as reticulation systems)	60,191	7,113	187	0
Sewerage:				
- treatment plants and facilities	14,936	0	0	0
- other assets (such as reticulation systems)	56,769	522	299	0
Stormwater	33,503	111	345	0
Flood Protection and controls works**	0	0	0	0
Roads and footpaths	431,853	12,557	742	0

st Council holds these assets at deemed cost and has not recently revalued these assets.

<sup>\*</sup> The carrying value of assets is calculated on deemed cost, separate insurance valuations are obtained for significant assets.

<sup>\*\*</sup> Roading assets are not insured. Council anticipates that most events would receive NZTA subsidy and the balance would be funded from debt.

<sup>\*\*</sup> Council does not own any assets in this class.

# Carbon credits

During the year, Timaru District Council acquired carbon credits for the purpose of meeting its obligations under the Emissions Trading Scheme for carbon emissions from its landfill operations. Timaru District Council is required to forfeit carbon credits for emissions following the end of each financial year.

# for the year ended 30 June 2019

# 19. Forestry assets

Balance as at 1 July Increases due to purchases Gains/(losses) arising from changes in fair value Decreases due to harvest Balance as at 30 June

Timaru District Council owns 203.6 hectares of Radiata Pine, Douglas fir and Macrocarpa forest, which is at varying stages of maturity ranging from 1 to 68 years.

The District Forester employed by Ashburton District Council has valued the forestry assets as at 30 June 2019. A pretax discount rate of 7.5% has been used in discounting the present value of expected cash flows.

# 20. Investment property

Balance as at 1 July
Additions from acquisitions
Write offs – demolitions
Disposals
Fair value gains/(losses) on valuation (note 8)
Balance as at 30 June

Timaru District Council's investment properties are valued annually at fair value effective 30 June 2019 by Ian Fairbrother VP (Urban) FNZIV FPINZ of Telfer Young. All investment properties are valued based on open market evidence.

Investment property held by Timaru District Holdings Limited was independently valued as at 30 June for the 2019 financial year by Ian Fairbrother VP (Urban) FNZIV, FPINZ, a registered valuer with Telfer Young (Canterbury) Limited. The valuation is based on fair value.

The fair value of investment property has been determined using the capitalisation of net revenue and discounted cashflow methods. These methods are based on assumptions

#### Financial risk management strategies

Timaru District Council is exposed to financial risks arising from changes in timber prices. Timaru District Council is a long-term forestry investor and does not expect timber prices to decline significantly in the foreseeable future, therefore, has not taken any measures to manage the risks of a decline in timber prices. Timaru District Council reviews its outlook for timber prices regularly in considering the need for active financial management.

including future rental revenue, anticipated maintenance costs, and appropriate discount rates. Where just the land value has been assessed, a 'market comparison' approach has been adopted. This method involves reference to sales of properties which have similar attributes to the subject property. Comparisons are drawn between the subject property and the sales evidence. Subjective adjustments are applied where necessary to account for factors which have a direct impact on the sale price and value.

There are no contractual obligations in relation to investment properties at balance date but not recognised in the financial statements (2018: Nil)

Details of any contingent liabilities arising from the group's involvement in the associate are disclosed separately in note 30.

# for the year ended 30 June 2019

# 22. Joint Venture

Timaru District Council has an 82% interest in the Downlands Water Supply joint venture, which is accounted for as a jointly controlled entity. Timaru District Council's interests in the jointly controlled entity is as follows:

	Council and Group	
	Actual 2019 \$000	Actual 2018 \$000
Current assets	5,917	5,195
Non-current assets	11,391	11,308
Current liabilities	256	107
Non-current liabilities	0	0
Revenue	1,629	1,520
Expenses	972	914

Details of any commitments and contingent liabilities arising from the group's involvement in the joint venture are disclosed separately in notes 29 and 30.

# 23. Trade and other payables

	Council		ncil		ир
	Actual 2019 \$000	Actual 2018 \$000		Actual 2019 \$000	Actual 2018 \$000
Trade creditors and accruals	6,801	6,928		6,928	7,229
Amounts due to related parties (note 31)	0	736		0	0
Contract retentions	411	354		411	354

### 25. Landfill aftercare provision

	Actual 2019 \$000	Actual 2018 \$000	Actual 2019 \$000	Actual 2018 \$000
Opening balance	6,127	6,717	6,127	6,717
Unused amounts reversed during the year	(1,158)	0	(1,158)	0
Amounts used during the year	0	0	0	0
Increase/(decrease) due to discount rate changes and assessment of liability	1,151	(708)	1,151	(708)
Discount unwinding	107	118	107	118
Closing balance	6,227	6,127	6,227	6,127

Council

Estimates of the life have been made by the Council's

The cash outflows for the landfill and post-closure costs are

expected to occur in one to fifty five years time (or between

2020 and 2074). The long term nature of the liability means

that there are inherent uncertainties in estimating costs that

will be incurred. The provision has been estimated taking into account existing technology and is discounted using a

discount rate of 2.22% (2018: 2.47%).

Council

engineers based on historical volume information.

Timaru District Council gained a resource consent in May 1995 to operate the Redruth Landfill, Timaru. The Council has responsibility under the resource consent to provide ongoing maintenance and monitoring of the landfill after the site is closed.

The remaining capacity of the site is 840,610 tonnes (refuse, clean fill and cover).

The estimated remaining useful life is 30 years.

#### 26. Borrowings

	Actual 2019 \$000	Actual 2018 \$000	Actual 2019 \$000	Actual 2018 \$000
Current				
Bonds Issued	10,000	5,000	10,000	5,000
LGFA Debt	17,500	27,500	17,500	27,500
Total current borrowings	27,500	32,500	27,500	32,500
Non-current				
Secured loans	0	0	13,900	14,900
Bonds Issued	0	10,000	0	10,000
LGFA Debt	66,984	52,028	66,984	52,028
Total non-current borrowings	66,984	62,028	80,884	76,928

The Council's secured loans are at a floating interest rate. The interest is set quarterly at the 90 day bank bill rate plus the applicable bank margin.

The debt is rolled over on a two and three year cycle, at which time the terms and conditions will be renegotiated. If Timaru District Council decides to refinance this loan it anticipates that the terms and conditions will be similar to the current arrangement.

Timaru District Council manages its borrowings in accordance with its funding and financial policies, which includes a Liability Management Policy. These policies have been adopted as part of the Timaru District Council's Long Term Plan.

The overdraft is unsecured. The maximum amount that can be drawn against the overdraft facility is \$nil (2018: \$nil). There are no restrictions on the use of this facility.

Group

**Group** 

Lease liabilities are effectively secured as the rights to the leased asset revert to the lessor in the event of default.

Timaru District Council loans are secured over the rating base of the district via Debenture Trust certificates.

#### Internal borrowings

Security

Information about internal borrowings is provided in the Council Activities section of the Council's annual report. Internal borrowings are eliminated on consolidation of activities in the Council's financial statements.

# for the year ended 30 June 2019

# Fair values of non-current borrowings

_				••
(	Oι	11	16	11

Bonds LGFA Debt

# Group

Secured loans Bonds LGFA Debt

The fair values are based on borrowing rates ranging from 1.82% to 6.00% (2018: 2.05% to 6.00%).

The carrying amounts of borrowings repayable within one year approximate their fair values, as the impact of discounting is not significant.

Carrying Amount				
2019 \$000	2018 \$000			
0	10,000			
66,984	52,028			
66,984	62,028			

Fair Value					
2019 \$000	2018 \$000				
0	10,000				
66,984	52,028				
66,984	62,028				

Carrying	Amount	Fair Va	lue
13,900	14,900	13,900	14,900
0	10,000	0	10,000
66,984	52,028	66,984	52,028
80,884	76,928	80,884	76,928

Long term borrowings are at market rates, therefore carrying amounts approximate their fair values.

#### Operating leases as lessee

Timaru District Council leases property, plant and equipment in the normal course of its business. The majority of these leases have a non-cancellable term of 36 months. The future aggregate minimum lease payments to be paid under non-cancellable operating leases are as follows:

	Cot	incil		Gro	up
	Actual 2019 \$000	Actual 2018 \$000		Actual 2019 \$000	Actual 2018 \$000
Not later than one year	78	254		78	254
Later than one year and not later than five years	1	80		1	80
Later than five years	0	0		0	0
Total non-cancellable operating leases	79	334	•	79	334

The total minimum future sublease payments expected to be received under non-cancellable subleases at balance date is \$nil (2018: \$nil).

Leases can be renewed at Timaru District Council's option, with rents set by reference to current market rates for items of

equivalent age and condition. Timaru District Council does not have the option to purchase the asset at the end of the lease term.

There are no restrictions placed on Timaru District Council by any of the leasing arrangements.

#### Operating leases as lessor

Timaru District Council leases its investment property under operating leases. These leases have a non-cancellable term of between 1 year and 14 years. The future aggregate minimum lease payments to be collected under non-cancellable operating leases are as follows:

	Council		Gro	up
	Actual 2019 \$000	Actual 2018 \$000	Actual 2019 \$000	Actual 2018 \$000
Not later than one year	195	176	2,306	2,197
Later than one year and not later than five years	655	622	5,629	5,608
Later than five years	433	523	22,455	24,380
Total non-cancellable operating leases	1,283	1,321	30,390	32,185

No contingent rents have been recognised in the statement of financial performance during the period.

#### **30. Contingencies**

#### **Contingent Liabilities**

The Building Act 2004 imposes certain obligations and liabilities on local authorities in respect of the issuing of building consents and inspection work done. At the date of this report, matters that have been bought to the Council's attention, indicate potential liabilities of \$nil (2018: \$nil).

RiskPool provides public liability and professional indemnity insurance to its members. The Council was a member of RiskPool until 30/6/2017. The Trust Deed of RiskPool provides that, if there is a shortfall (whereby claims exceed contributions of members and reinsurance recoveries) in any Fund year, then the Board may make a call on members for the fund year. The Council received a notice during 2009 for a call for additional contributions in respect of the 2002/03 and 2003/04 Fund years as those

Council

Group

#### for the year ended 30 June 2019

funds are exhibiting deficits due to the "leaky buildings" issue. A further notice was received by Council in May 2019 for a call on 1 July 2019.

Housing New Zealand Corporation has provided \$1,100,000 as at 30 June 2019 (2018: \$1,100,000) towards the construction of social housing units. This advance is repayable, with interest, if the Council withdraws its investment in the joint funded social housing.

Timaru District Council was vested ownership of the site at 2 North Street Timaru on 16 September 2016 by a ruling of the High Court of New Zealand, following the property becoming disclaimed property. Timaru District Council has been involved in a multi-agency response, that has included government agencies and local government, to address contamination issues caused by the prior use of the site. The cost of the clean up to date has been met with funding from the Ministry for the Environment. The agencies involved will continue to seek external funding for any remaining remedial work.

Timaru District Council has 18,550,000 shares (2018: 18,550,000) in Timaru District Holdings Limited at an issue price of \$1.35 each which have been paid to \$185.50 (2018: \$185.50). This uncalled capital is security for the Letter of Credit facility of \$25m with ANZ Bank for the credit facilities with Timaru District Holdings Limited.

#### Local Government Funding Agency

Timaru District Council is a guarantor of the New Zealand Local Government Funding Agency Limited (LGFA). The LGFA was incorporated in December 2011 with the purpose of providing debt funding to local authorities in New Zealand and it has a current credit rating from Standard and Poor's of AA+.

Together with the shareholders of LGFA and other guarantors,

Timaru District Council is a guarantor of all of LGFA's borrowings. At 30 June 2019, NZLGFA had borrowings totalling \$9.5 billion (2018: \$8.3 billion).

Financial reporting standards require Timaru District Council to recognise the guarantee liability at fair value. However, Timaru District Council has been unable to determine a sufficiently reliable fair value for the guarantee, and therefore has not recognised a liability. Timaru District Council considers the risk of the LGFA defaulting on repayment of interest or capital to be very low on the basis that:

- it is not aware of any local authority debt default events in New Zealand; and
- local government legislation would enable local authorities to levy a rate to recover sufficient funds to meet any debt obligations if further funds were required.

#### Joint Venture contingent liabilities

There are no contingent liabilities associated with Downlands Water Supply Joint Venture (2018: \$nil).

#### Associates contingent liabilities

Timaru District Council's share of contingent liabilities of PrimePort Timaru Limited and Alpine Energy Limited, incurred jointly with other investors, is \$nil (2018: \$nil).

Primeport has no contingent liabilities at balance date (2018: \$1.85 million)

Alpine Energy Limited group has contingent liabilities as at 31 March 2019 of \$5.677m in the form of performance and import guarantees to cover ongoing project work (2018: \$9.106m)

#### Contingent assets

Timaru District Council and group do not have any contingent assets.

#### for the year ended 30 June 2019

#### 31. Related party transactions

During the year to 30 June 2019, the Council entered into various transactions with its associate companies (PrimePort Timaru Limited and Alpine Energy Limited), subsidiaries (Timaru District Holdings Limited, Aorangi Stadium Trust and Aoraki Development and Promotions Limited) and joint venture (Downlands Water Supply).

The following transactions were carried out with related parties:

#### Key Management Personnel

During the year Councillors and key management, and any other entities they have an interest in, as part of a normal customer relationship, were involved in minor transactions with Timaru District Council (such as the payment of rates etc).

During the year, Timaru District Council purchased goods and services from Parr & Co Limited, an organisation in which the Mayor is a Director. The transactions amounted to \$20,047 (2018: \$19,621). The balance outstanding as at 30 June 2019 is \$1,860 (2018: \$441).

During the year, Timaru District Council purchased goods and services from Air & Power Industrial Limited, an organisation in which the Mayor is a Director. The transactions amounted to \$479 (2018: \$Nil). The balance outstanding as at 30 June 2019 is \$Nil (2018: \$Nil).

Key management personnel compensation

During the year, Timaru District Council purchased goods and services from The Speights Ale House, an organisation in which Councillor Bowen is a Director. The transactions amounted to \$1,106 (2018: \$Nil). The balance outstanding as at 30 June 2019 is \$Nil (2018: \$Nil).

Close family members of key management personnel are employed by Council. The terms and conditions of those arrangements are no more favourable than Council would have adopted if there were no relationship to key management personnel.

No provision has been required, nor any expense recognised for impairment of receivables for any loans or other receivables to related parties (2018: \$nil).

**Total remuneration**

	345		340

Total remuneration includes non-financial benefits provided to employees.

At balance date, the Council employed 195 full-time employees (2018: 185), with the balance of staff representing 45 full-time equivalent employees (2018: 55). A full-time employee is determined on the basis of working a 37.5 or 40-hour working week.

#### 33. Capital Management

The Council's capital is its equity (or ratepayers' funds), which comprise retained earnings and reserves. Equity is represented by net assets.

The Local Government Act 2002 (the Act) requires Council to manage its revenue, expenses, assets, liabilities, investments and general financial dealings prudently and in a manner that promotes the current and future interests of the community. Ratepayer's funds are largely managed as a by-product of managing revenues, expenses, assets, liabilities, investments and general financial dealings.

The objective of managing these items is to achieve intergenerational equity, which is a principle promoted in the Act and applied by the Council. Intergenerational equity requires today's ratepayers to meet the costs of utilising the Council's assets and not expecting them to meet the full cost of long term assets that will benefit ratepayers in future generations. Additionally, the Council has in place asset management plans for major classes of assets detailing renewal and maintenance programmes, to ensure ratepayers in future generations are not required to meet the costs of deferred renewals and maintenance.

The Act requires the Council to make adequate and effective provision in its Long Term Plan (LTP) and in its annual plan (where applicable) to meet the expenditure needs identified

in those plans. And the Act sets out the factors the Council is required to consider when determining the most appropriate sources of funding for each of its activities. The sources and levels of funding are set out in the funding and financial policies in the Council's LTP.

Timaru District Council has the following Council created reserves:

- reserves for different areas of benefit
- self-insurance reserves; and
- trust and bequest reserves.

Reserves for different areas of benefit are used where there is a discrete set of rate payers as distinct from the general rate. Any surplus or deficit relating to these separate areas of benefit is applied to the specific reserves.

Self-insurance reserves are built up annually from general rates and are made available for specific unforeseen events.

Trust and bequest reserves are set up where Council has been donated funds that are restricted for particular purposes. Interest is added to trust and bequest reserves where applicable and deductions are made where funds have been used for the purpose they were donated.

#### 34. Events after balance sheet date

There are no significant events subsequent to balance sheet date.

#### Fair value

The Council carries certain financial assets and financial liabilities at fair value. In accordance with PBE IPSAS 30 - Fair Value Measurement, Council uses various methods in estimating the fair value of its financial instruments. The methods comprise:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- **Level 3 -** Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The fair value of Investment Properties is Level 2 as per Note 20.

The following table analyses the basis of the valuation of classes of financial instruments measured at fair value in the statement of financial position:

#### for the year ended 30 June 2019

		Valuation technique	•	
	Total \$000	Quoted market price \$000	Observable inputs \$000	Significant non- observable inputs \$000
30 June 2019 - Council				
Financial assets				
Investments in debt securities	3,108	0	3,108	0
Shares	269	0	0	269
Financial liabilities				
Derivatives	4,225	0	4,225	0
30 June 2019 - Group				
Financial assets				
Investments in debt securities	3,108	0	3,108	0
Shares	269	0	0	269
Financial liabilities				
Derivatives	4,667	0	4,667	0
30 June 2018 - Council				
Financial assets				
Investments in debt securities	3,787	0	3,787	0
Shares	269	0	0	269
Financial liabilities				
Derivatives	2,659	0	2,659	0
30 June 2018 - Group				
Financial assets				
Investments in debt securities	3,787	0	3,787	0
Shares	269	0	0	269
Financial liabilities				
Derivatives	3,283	0	3,283	0

There were no transfers between the different levels of the financial hierarchy.

Valuation techniques with significant non-observable inputs (level 3)

The table below provides a reconciliation from the operating balance to the closing balance for the level 3 fair value measurements:

	2019 \$000	2018 \$000
Balance as at 1 July	270	270
Gain and losses recognised in the surplus or deficit	0	0
Gain and losses recognised in other comprehensive revenue	0	0
Purchases	0	0
Sales	0	0
Transfers into level 3	0	0
Transfers out of level 3	0	0
Balance as at 30 June	270	270

Changing a valuation assumption to a reasonable possible alternative assumption would not significantly change fair value.

#### for the year ended 30 June 2019

#### Financial Instruments risks

Timaru District Council has a series of policies to manage the risks associated with financial instruments. Timaru District Council is risk averse and seeks to minimise exposure from its treasury activities. Timaru District Council has established Council approved Liability Management and Investment policies. These policies do not allow any transactions that are speculative in nature to be entered into.

#### Market risk

#### Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Timaru District Council is not exposed to currency risk as it does not enter into foreign currency transactions.

#### Interest rate risk

#### Fair value interest rate risk

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Borrowings and investments issued at fixed rates expose the Timaru District Council to fair value interest rate risk. Timaru District Council's Liability Management policy outlines the level of borrowing that is to be sourced using fixed rate instruments.

#### Cash flow interest rate risk

Cash flow interest rate risk is the risk that the cash flows from a financial instrument will fluctuate because of changes in market interest rates. Borrowings and investments issued at variable interest rates expose Timaru District Council to cash flow interest rate risk.

Timaru District Council manages its cash flow interest rate risk on borrowings by using floating to fixed interest rate swaps. Such interest rate swaps have the economic effect of converting borrowings at floating rates and swaps them into fixed rates that are generally lower than those available if Timaru District Council borrowed at fixed rates directly. Under the interest rate swaps. Timaru District Council agrees with other parties to exchange, at specified intervals, the difference between fixed contract rates and floating-rate interest amounts calculated by reference to the agreed national principal amounts.

#### Credit risk

Credit risk is the risk that a third party will default on its obligation to Timaru District Council, causing the Council to incur a loss. Timaru District Council has no significant concentrations of risk, as it has a large number of customers, mainly ratepayers, and the Council has powers under the Local Government (Rating) Act 2002 to recover outstanding debts from ratepayers.

Timaru District Council invests funds in accordance with its Investment policy which limits the amount of credit exposure to any one institution and ensures dispersion and minimisation of risk.

Timaru District Council has no other collateral or other credit enhancements for financial instruments that give rise to credit risk.

Timaru District Council's maximum credit exposure for each class of financial instrument is as follows:

	Council		Gro	up
	Actual 2019 \$000	Actual 2018 \$000	Actual 2019 \$000	Actual 2018 \$000
Cash at bank and term deposits	55,826	57,517	58,331	60,066
Trade and other receivables	7,158	5,853	8,451	7,309
Community loans	502	564	502	564
Related party loans	22,180	22,180	0	0
Investments in debt securities	3,108	3,787	3,108	3,787
Derivative financial instrument assets	0	0	0	0
Total credit risk	88,774	89,901	70,392	71,726

All cash at bank and term deposits are neither past due nor impaired and are made with registered banks with Standard and Poor's credit ratings of A1 or better short term.

All investments in debt securities are neither past due nor impaired and are made with counterparties with Standard and Poor's credit ratings of BBB or better long term or with other local authorities.

Community loans are with counterparties with no defaults in the past.

#### for the year ended 30 June 2019

#### Liquidity risk

Liquidity risk is the risk that Timaru District Council will encounter difficulty raising liquid funds to meet commitments as they fall due. Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Timaru District Council aims to maintain flexibility in funding by keeping committed credit lines available.

In meeting its liquidity requirements, the Council maintains a target level of investments that must mature within the next 12 months and ensure all investments are readily tradable.

Timaru District Council manages its borrowing in accordance with its funding and financial policies, which include a Liability Management policy. These policies have been adopted as part of the Council's Long Term Plan.

Timaru District Council has a maximum amount that can be drawn down against its overdraft facility of \$nil (2018: \$nil). There are no restrictions on the use of this facility.

#### Contractual maturity analysis of financial liabilities, excluding derivatives

The table below analyses Timaru District Council's financial liabilities into relevant maturity groupings based on the remaining period at the balance date to the contractual maturity date.

	Carrying amount	Less than 1 year	1-2 years	2-5 years	More than 5 years

#### for the year ended 30 June 2019

#### 36. Severance payments

For the year ended 30 June 2019, the Council made one (2018: 0) severance payments to employees totalling \$55,756 (2018: \$0).

#### 37. Explanation of major variances against budget

Timaru District Council made a net surplus of \$42.08 million (budgeted surplus of \$4.957 million)

\$000

1,539
807
482
37,853
42,086

The major reasons for the variance between actual and budgeted net surplus were:

- Timaru District Holdings Limited declared a Taxable Bonus Share Issue of \$30,000,000 on June 29, 2019. This was a non cash transaction, which increased Dividend Revenue by \$30,000,000 and the Council's Shareholding in Timaru District Holdings Limited by \$30,000,000.
- NZTA provided additional funding of \$750,000 for footpaths. This funding is available following a change in NZTA policy, after the 2018-19 budget was adopted. Funding from NZTA is usually confined to Roading, Street Lighting and Road Safety.
- Timaru District Council formed a consolidated Tax Group with Timaru District Holdings Limited on 1 July 2019. In a consolidated tax group Subvention Losses are not available to be purchased. Timaru District Council budgeted to purchase subvention losses of \$887,000 during the year. There was an overstatement of \$80,000 from the 2017/18 year which led to a \$807,000 variance against budget.
- Unrealised loss on interest rate swaps of \$1,567,000, which is not budgeted for due to inherent difficulties in forecasting market conditions. A loss of swaps arises when interest rates at valuation date are lower than when last valued.
- A large volume of residential developments were completed during the year, a result of which is that \$1,242,000 worth of infrastructure assets were vested in Council, which is shown as revenue for the year.
- The Aorangi Park Association vested a Sports Pavilion situated on Timaru District Council land to the Council. The Fair Value of the Pavilion was \$687,000 at the vesting date.
- There has been a increase in the landfill aftercare provision of \$100,000 due to interest rate changes and reassessment of the costs to provide aftercare.
- Actual costs for depreciation were lower than forecast by \$521,000, mainly due to timing of significant capital projects.
- Finance costs were lower than budget by \$1,539,000 due to timing of expenditure on projects meaning that loans are not needed until later than expected, as well as lower than forecast interest rates.

#### for the year ended 30 June 2019

#### Statement of financial position

The Taxable Bonus share issue by Timaru District Holdings Limited increased Timaru District Council's shareholding by \$30,000,000.

Due to the timing of capital expenditure projects, partially offset by reduced depreciation, fixed assets are below budgeted level. As a result of this, borrowings are also slightly less than budgeted. Some loan funding has been drawn down in advance of planned capital expenditure, which has resulted in increases in short-term investments.

#### Disclosure Statement

Regulations were introduced in May 2014 requiring Council to disclose its performance in relation to specific benchmarks, as follows:

#### 1. Rates (revenue) affordability benchmark

The following graph compares the Council's actual rates revenue with a quantified limit on rates contained in the financial strategy included in the Council's long-term plan.

The quantified limit is \$45m (2014/2015), \$55m (from 2015/2016 to 2017/2018), and \$85m (from 2018/2019).

#### 2. Rates (increase) affordability benchmark

The following graph compares the Council's actual rates increases with a quantified limit on rates increases included in the financial strategy included in the Council's long-term plan. The quantified limit is 6%. The quantified limit was exceeded during the 2018/19 year due to additional rating units being added to the rating database between the adoption of the annual plan and the striking of rates for the year. Council adopted a 5.8% increase for the 2018/19 year.

#### 3. Debt affordability benchmark

The following graph compares the Council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the Council's long-term plan. The quantified limit is \$128 million (2014/2015) and \$147m (from 2015/2016 to 2017/2018) and \$209m (from 2018/2019).

The Council meets the debt affordability benchmark if its actual borrowing is within each quantified limit on borrowing.

#### 4. Balanced budget benchmark

The following graph displays the Council's revenue (excluding development contributions, financial contributions, vested assets, gains on derivative financial instruments, and revaluations of property, plant, or equipment) as a proportion of operating expenses (excluding losses on derivative financial instruments and revaluations of property, plant or equipment).

The Council meets this benchmark if its revenue equals or is greater than its operating expenses. The 2018/19 balanced budget figure is impacted by the one off non-cash bonus share issue from TDHL showing as dividend income. Adjusting for this, the balanced budget measure would be 117.33%.

#### Disclosure Statement

#### 5. Essential services benchmark

The following graph displays the Council's capital expenditure on network services as a proportion of depreciation on network services. The Council meets this benchmark if its capital expenditure on network services equals or is greater than depreciation on network services.

#### 6. Debt servicing benchmark

The following graph displays the Council's borrowing costs as a proportion of revenue (excluding development contributions, financial contributions, vested assets, gains on derivative financial instruments, and revaluations of property, plant or equipment).

Because Statistics New Zealand projects the Council's population will grow more slowly than the national population growth rate, it meets the debt servicing benchmark if its borrowing costs equal or are less than 10% of its revenue.

The 2018/19 debt servicing benchmark is impacted by the one off non-cash bonus share issue from TDHL showing as dividend income. Adjusting for this the debt servicing measure would be 4.31%.

#### 7. Debt control benchmark

The following graph displays the Council's actual net debt as a proportion of planned net debt as per Council's long-term plan. In this statement, net debt means financial liabilities less financial assets (excluding trade and other receivables).

The Council meets the debt control benchmark if its actual net debt equals or is less than its planned net debt.

The 2018/19 debt control benchmark is impacted by the one off non-cash bonus share issue from TDHL increasing the Council's investment in CCOs. Adjusting for this, the debt control measure would be 31.18%.

#### 8. Operations control benchmark

This graph displays the Council's actual net cash flow from operations as a proportion of its planned net cash flow from operations.

The Council meets the operations control benchmark if its actual net cash flow from operations equals or is greater than its planned net cash flow from operations.

#### Coat of Arms

The grant of armorial bearings to the City of Timaru was made by the College of Heralds, London, by letters patent dated 18 October 1977. The original grants document with its impressive artwork and gold seals is displayed outside the Council Chamber in the upstairs foyer of the District Council Building, King George Place, Timaru. Although granted to the former Timaru City Council, the heraldic emblems used are equally applicable to the whole district and use of the Coat of Arms by the District Council has been approved by the New Zealand Herald of Arms.

The Timaru District Council Coat of Arms is used to accentuate the civic responsibilities of Council or to denote Mayoral authority.

#### Our Workforce

Timaru District Council employs a total of 240 full time equivalent staff (including casual positions) Council has a strong commitment to the development and continuous improvement of its staff. We recognise that people are one of our most important assets and a more effective workforce positively impacts on Councils ability to deliver results for our community.

A very active and supportive Health and Safety Committee continues to be a key part of this process. We have an increasingly holistic focus, which incorporates the health and wellbeing of our staff and not just the safety components. This has included education about mental health awareness, domestic violence, suicide prevention, wellness and physical health.

#### Our staff - some quick facts

#### Length of Service

We have a good mix of experienced staff and staff new to the organisation.

18% have worked for TDC for less than one year

have worked for TDC for 10-20 years

have worked for TDC for 1-4 years

have worked for TDC for 21-30 years

have worked for TDC for 5-9 years

have worked for TDC for 30+ years

#### Glossary

#### **Activity**

Services, projects or goods provided by, or on behalf of, Council (e.g. libraries, art gallery). These activities are then combined into groups of activities.

#### **Annual Plan**

The Annual Plan is produced in the intervening years between Long Term Plans. It includes the work programme for the year and financial statements. The first year of a Long Term Plan cycle represents the Annual Plan for that year.

#### **Annual Report**

Reports on the performance of the Council against the objectives, policies, activities, performance measures, indicative costs, and sources of funds outlined in the Annual Plan and the Long Term Plan.

#### Asset

Something of value that the Council owns on behalf of the people of Timaru District such as roads, drains, parks and buildings.

#### **Activity/Asset Management Plan**

A plan for managing an activity to ensure that its capacity to provide a service is maintained, future strategy is established, work is planned for and costs to provide an activity are identified.

#### **Borrowing**

The raising of loans for capital items, such as a sewerage scheme.

#### **Capital Expenditure**

Expenditure that will increase the value of the Council's assets. It generally involves building a new asset or replacing an existing asset.

#### **Capital Value**

Value of land including any improvements.

#### **Community Boards**

Local elected bodies set up under the Local Government Act. Community Boards are consulted by the Council and can represent community concerns to the Council. Timaru District has three Community Boards - Temuka, Geraldine and Pleasant Point.

#### **Community Outcomes**

Community Outcomes represent the outcomes that the Council "aims to achieve in meeting the current and future needs of communities for good-quality local infrastructure, local public services, and performance of regulatory functions".

#### **Consultation Document**

A document used to consult on issues presented. This may include options and a preferred option.

#### **Council Controlled Organisations**

Council-controlled organisations are organisations in which one or more local authorities control 50 per cent or more of the voting rights or appoint 50 percent or more of the directors.

#### Financial Strategy

Guides Council's financial direction, including information around revenue, expenditure, rating, debt and investments. It is required under Section 101A of the Local Government Act.

#### **Financial Year**

The Council's financial year runs from 1 July to 30 June of the following year.

#### **General Rate**

A rate levied across all properties for activities that benefit the whole District.

#### **Group of Activities**

Several activities combined together (e.g. Recreation and Leisure).

#### **Infrastructure Strategy**

A 30 year strategy that sets out significant infrastructure issues, expenditure forecasts, principal options and planned projects under Section 101B of the Local Government Act. At a minimum, the strategy must cover roading and footpaths, sewer, stormwater, flood control and water supply.

Value of land, excluding any improvements.

#### **Local Government Act 2002**

The key legislation that defines the powers and responsibilities of local authorities like the Timaru District Council.

#### Long Term Plan (LTP)

A ten-year plan that sets out the Council's strategic framework, work programme, performance framework, funding approach and budget for the next ten years.

#### **Operating Expenditure**

Money the Council spends on day to day expenditure items such as salaries, materials, electricity and plant hire.

#### **Operating Revenue**

Money earned through the activities in return for a service provided, or by way of a grant or assistance to ensure

#### Glossary

particular services or goods are provided. Examples include NZTA financial assistance, rental income, permits and fees.

#### **Operating Surplus/(Deficit)**

The expressions 'operating surplus' and 'operating deficit' are accounting terms meaning the excess of income over expenditure and excess expenditure over income respectively. Income and expenditure in this context exclude 'capital' items such as the receipt or repayment of loans, the cost of capital works and transfers to and from Reserves. An operating surplus/deficit is inclusive of non-cash items such as income and expenditure owing but not paid (Debtors and Creditors) and depreciation.

#### **Performance Measure**

A measure that shows how well Council is doing in achieving the objectives it has set for itself.

#### **Rates**

Funds collected by the Council from levies on property. These are based on the land value of the property but the term is often used to include Uniform Annual General Charges and Targeted Rates.

#### **Revenue and Financing Policy**

This describes how the Council's work will be paid for and the mechanisms used for gathering funds (e.g. general rate, targeted rates, fees, user charges, grants).

#### **Significance**

In relation to any issue, proposal, decision, or other matter that concerns or is before a local authority, means the degree of importance of the issue, proposal, decision or matter, as assessed by the local authority.

#### **Significance and Engagement Policy**

The Significance and Engagement Policy (SEP) enables the Council and its communities to identify the degree of significance attached to particular issues, proposals, assets, decisions and activities. It also provides clarity about how and when communities can expect to be engaged in decisions about different issues, assets or other matters.

#### **Statement of Cash Flows**

This describes the cash effect of transactions and is broken down into three components: operating, investing and financing activities.

#### **Statement of Comprehensive Revenue and Expense**

Referred to as the Profit and Loss Statement, the Income Statement, or the Operating Statement. It shows the financial results of various Timaru District Council activities at the end of each period as either a surplus or deficit. It does not include asset purchases or disposals.

#### **Statement of Financial Position**

This shows the financial state of affairs at a particular time. It can also be referred to as the Balance Sheet.

#### **Subsidies**

Amounts received from other agencies for the provision of services.

#### **Targeted Rates**

Any rate levied other than the general rate, which is targeted at users of a service such as water supply, sewer and waste minimisation.

#### **Transfer to/from Reserves**

Transfers of funds to reserves are generally surpluses on operations. Transfers from reserves assist to fund capital expenditure.

#### **User Charges**

Charges levied for use of Timaru District Council services (e.g. building consent fees, swimming pool entry fees).

#### **Working Capital**

The Council's net current assets that are held in cash or can be readily converted to cash, less liabilities due for payment within a year. This is indicative of the Council's ability to meet its obligations as they become due.
