

## ASW – Activities on the surface of water

Feedback No.	Section	Sub-section	Plan Provision	Feedback	Relief sought
<a href="#">143.49</a>	ASW – Activities on the surface of water	General		<p><u>Activities on the surface of water</u></p> <p>Provide for management of water surface activities, such as recreational, commercial and scientific / environmental activities</p>	<p><u>Activities on the surface of water</u></p> <p>· [REDACTED] are in a neutral position on this section of the Draft Plan.</p>
<a href="#">68.30</a>	ASW – Activities on the surface of water	General	General	<p>This section as written is a bit of a nonsense. For example, in ASW - P4, how can you construct a structure on the surface of water, and ASW - P4 &amp; P5 includes riparian margins, which are not the surface of water, and may never even be covered by water.</p> <p>This section needs to be rewritten in such a way that it is about the land which has a water-body present on it, at least part of the time.</p>	
<a href="#">43.85</a>	ASW – Activities on the surface of water	Objectives	ASW-O1 Protecting the ecological, recreational,	Retain as proposed or preserve the original intent.	
<a href="#">141.115</a>	ASW – Activities on the surface of water	Rules	ASW-R8 Structures on the surface of the Distric	[REDACTED] generally does not have an interest in the activities managed by the Activities on the Surface of Water chapter, other than to note that we would consider it an unintended consequence if the wording of ASW-R8 (applying to structures on the surface of the District’s rivers) inadvertently captured water intake structures? These would be managed appropriately at the regional plan level.	Consider
