

LOCAL CENTRE ZONE

Introduction

The Local Centre Zone is applied to shopping areas that are located in the suburban areas of Timaru. The Zone provides for a range of commercial activities that primarily serve the daily and weekly needs of the surrounding communities, including supermarkets and community facilities.

Objectives

LCZ-O1 The purpose of the Local Centre Zone

The Local Centre Zone provides primarily for community facilities and a range of commercial activities which:

1. primarily support the daily and weekly goods and services needs of the surrounding residential areas and passers-by¹; and
2. are of a size and scale that do not undermine the purpose, function and amenity values of the City Centre Zone.

LCZ-O2 Character and qualities of the Local Centre Zone

The Local Centre Zone:

1. accommodates large volumes of people; and
2. contains attractive and functional buildings generally of a moderate scale and density, with larger footprints for supermarkets, and associated car parking and storage areas; and
3. integrates with public spaces and reflects good urban design principles; and
4. contains activities and buildings that are compatible with the use and amenity values of adjoining sites in the Residential Zones or Open Space and Recreation Zones.

Policies

LCZ-P1 Commercial activities and community facilities

Enable a range of commercial activities and community facilities that:

1. are consistent within the purpose, character and qualities of the Local Centre Zone; and
2. are of a scale and nature that minimises any adverse effects on the use and amenity values of adjacent sites in the Residential Zones or Open Space and Recreation Zones; and
3. do not undermine the purpose, function and amenity values of the City Centre Zone.

LCZ-P2 Scale and location of built form

Maintain the amenity values of the surrounding area and adjoining sites, by requiring:

1. buildings and structures to be of a height that ensures adjoining sites in the Residential Zones or Open Space and Recreation Zones:
 - a. have a reasonable standard of sunlight access; and
 - b. retain privacy; and
 - c. are not overly dominated by built form;
2. buildings to be setback from the boundaries of Residential Zones or Open Space and Recreation Zones, to:
 - a. minimise any dominance effects arising from the location and bulk of buildings; and
 - b. minimise any adverse privacy effects on adjacent sites; and
3. the screening of storage areas from adjoining sites and roads.

LCZ-P3 Urban design

Require larger-scale development to be designed and laid out in a manner that:

¹ Woolworths [242.26]

1. engages and integrates well with streets and public spaces; and
2. provides a high-quality pedestrian experience; and
3. takes into account the functional needs and operational needs² of commercial activities.

LCZ-P54 Other activities

Only allow other activities to establish within the Local Centre Zone where they are:

1. consistent with the purpose, character and qualities of the Local Centre Zone; and
2. of a scale and nature that would not undermine the purpose, function and amenity values of the City Centre Zone.

LCZ-P65 Industrial activities

Avoid the establishment of industrial activities within the Local Centre Zone unless:

1. the nature and scale of the industrial activity is consistent with the purpose, character and qualities of the Local Centre Zone; and
2. any adverse effects of the industrial activity are comparable with those that would arise from a permitted activity.

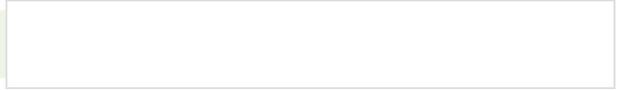

Rules

Note: For certain activities, consent may be required by rules in more than one chapter in the *District Plan*. Unless expressly stated otherwise by a rule, consent is required under each of those rules. The steps plan users should take to determine what rules apply to any activity, and the status of that activity, are provided in Part 1, HPW — How the Plan Works - General Approach.

The method for determining recession planes and any permitted projection is described in APP8 - Recession Planes.	Matters of discretion are restricted to: <ol style="list-style-type: none"> 1. any impact on privacy and the ability to use outdoor living space of adjoining Residential Zones; and 2. any impact on solar access to living rooms and private open space of adjoining Residential Zones; and 3. any adverse effects resulting from the bulk and dominance of built form; and 4. any mitigation, such as the use of architectural features or steps in the building.
LCZ-S3	Setback of buildings
