

STATUTORY CONTEXT

Relationship with Other Planning Documents

In preparing the District Plan, the Council is required to consider a range of other plans and policy documents of relevance to the District.

The District Plan must give effect to any NPS National Policy Statement, the NZCPS New Zealand Coastal Policy Statement, the National Planning Standards, and the CRPS Canterbury Regional Policy Statement. The Council is also required to enforce any relevant NES National Environmental Standard prepared under the RMA. Plan rules may not duplicate NES National Environmental Standard provisions or be more lenient than them, unless specifically provided for in the NES National Environmental Standard.

The District Plan must not be inconsistent with any Water Conservation Order or relevant Canterbury Regional Council Plan. The Council will undertake Plan Changes, if necessary, where these plans or policy documents are proposed or altered during the life of this District Plan.

The Local Government Act 2002 allows the Council to set out broad objectives and policies in the Long-Term Plan which will provide a clear indication of or desired community outcomes and intended Council activities. The Council's Long-Term Plan controls funding for planning and heritage work which may be relevant to the District Plan.

Treaty of Waitangi / Te Tiriti o Waitangi and Māori Issues of Significance

Under section 74 of the RMA, the Council is required to prepare its District Plan in accordance with the provisions of Part 2 (sections 5- to 8 of the RMA), which includes the following clauses:

Recognise and provide for:

- s6(e) the relationship of Māori and their culture and traditions with their ancestral lands, water, sites, wāhi tapu, and other taonga;
- s6(f) the protection of historic heritage from inappropriate subdivision, use and development; and
- s6(g) the protection of protected customary rights.

Have particular regard to:

- s7(a) kaitiakitanga.

Section 8 of the RMA requires that the Council take into account the principles of the Treaty of Waitangi / Te Tiriti o Waitangi when it exercises its functions to manage the use, development and protection of physical and natural resources.

The principles of the Treaty are obligations on the Crown, but are relevant to local authorities under section 8 of the RMA, in that they are to be taken into account when exercising their power and duties under that act.

The Court of Appeal¹ has outlined the following key Treaty principles:

- *The acquisition of sovereignty in exchange for the protection of rangatiratanga*: "The Crown sought legitimacy from the indigenous people for its acquisition of sovereignty and in return it gave certain guarantees" (Justice Richardson);²
- *Partnership*: Each party to the Treaty owes the other a duty to act reasonably and in good faith;³
- *Freedom of the Crown to govern*: The Treaty does not restrict the right of a duly elected government to follow its chosen policy;⁴

- *Duty of active protection*: The Crown has a duty to actively protect Māori interests in the use of their lands and waters;
- *Duty to remedy past breaches*: The Crown has a duty to grant some form of redress where the Waitangi Tribunal finds merit in a claim;
- *Retention of rangatiratanga*: “The Māori Chiefs looked to the Crown for protection from other foreign powers, for peace and for law and order. They reposed their trust for these things in the Crown believing that they retained their own rangatiratanga and taonga.” (Justice Bisson); and
- *Duty to consult*: The responsibility to act in good faith and reasonably puts the onus on the Crown to make an informed decision, in many cases that will require consultation.²

These matters are addressed in the District Plan as follows:

- ~~The~~ Mana Whenua ~~e~~Chapter recognises the status of Kāti Huirapa as the hapū holding customary authority in the ~~Timaru~~ District. It describes Kāti Huirapa values, interests and concerns that are relevant in respect to the matters in ~~S~~sections 6(e) and (f), ~~S~~section 7(a) and ~~S~~section 8 of the RMA³. Section MW3 also describes resource management-related requirements of the Ngāi Tahu Claims Settlement Act 1998. Section MW3.2 specifically identifies the Statutory Acknowledgement Areas present in the District.¹ and Section MW4 identifies relevant iwi planning documents to be taken into account in resource management decision-making in the ~~Timaru~~ District;
- ~~The~~ Sites and Areas of Significance to Māori ~~e~~Chapter identifies areas that have particular significance to Kāti Huirapa in terms of section 6(e) of the RMA, and includes objectives, policies and rules to protect the values of these areas;
- ~~The~~ Māori Purposes Zone chapter includes objectives, policies and rules to enable Kāti Huirapa to live and support themselves on ancestral land at Arowhenua and Waipopo; and
- ~~P~~rovision for the relationship of Kāti Huirapa with the ~~e~~District as a whole, and their kaitiakitanga role in regard to sustaining the environment, is integrated into objectives, policies and rules across the District Plan.

These provisions were developed with the involvement of Kāti Huirapa. Involvement included:

- drafting of the Mana Whenua ~~e~~Chapter;
- preparation of research reports to inform drafting of the Sites and Areas of Significance to Māori Chapter and Māori Purposes Zone ~~e~~Chapters; and
- representation on the Environmental Services Committee, Heritage, Biodiversity, mana whenua, Steering Groups and the Council’s Technical Working Group.

The Iwi Management Plans that apply to the ~~Timaru~~ District at the time of notification are the:

- Iwi Management Plan of Kāti Huirapa;
- Te Rūnanga o Ngāi Tahu Freshwater Policy;
- Hazardous Substances New Organisms Policy; and
- Te Whakatau Kaupapa Ngāi Tahu Resource Management Strategy for the Canterbury Region.²

The Council is committed to a process of ongoing liaison and consultation with the ~~M~~mana ~~W~~henua, the registered iwi authority,³ to discuss issues of relevance to them. Council undertakes to enter this relationship exercising utmost good faith, to make informed decisions and actively protect Māori interests through its obligations under the RMA.
