1. Winter Air Quality 2019 🗓 🛗

Item 7.1 Page 13

Air quality in Geraldine - updated to 2 September 2019

In 2019 there was one day when PM_{10} concentrations were high. This occurred on 1 February, which was an unusual time of year for high PM_{10} concentrations, and there were mostly coarse particles (80%) that day. The Ministry for the Environment considered this to be an exceptional event and it does not count for the NESAQ. This is the fourth year that the NESAQ has been met in this airshed.

The second highest PM_{10} concentration, being the highest during winter, was higher than the second highest in the previous few years. The second highest $PM_{2.5}$ concentration was lower than those measured in other years. The winter average PM_{10} and $PM_{2.5}$ concentrations were lower in 2019 than in earlier years.

PM_{2.5} monitoring showed there were 15 daily average concentrations higher than 25 μ g/m³ during 2019, which was similar to 2018 and fewer than the previous two years.

Like 2018, there were few high pollution nights during June, when frequent high PM concentrations have occurred in the past.

Air quality in Timaru - updated to 2 September 2019

In 2019 there were 12 days when PM_{10} concentrations were high. This was more than last year but less than previous years. The second highest concentration measured, which was 75 μ g/m³ in 2019, must be less than 50 μ g/m³ to meet the NESAQ in 2021.

PM_{2.5} monitoring showed there were 29 daily average concentrations higher than 25 μg/m³ during 2019, which was more than last year, but far fewer than during the previous years. The winter average PM_{2.5} concentration was lower in 2019 than any other year. The winter average PM₁₀ concentration was higher than the winter average in 2018, but lower than previous years.

Like 2018, there were few high pollution nights during June, when frequent high PM concentrations have occurred in the past.

Air quality in Washdyke - updated to 2 September 2019

In February 2019 the monitoring site in Washdyke was moved as the land at Washdyke Flat Road was being redeveloped. At the new Alpine monitoring site established in mid March there have been eight days with high PM₁₀ concentrations. These were mostly coarse particles, and the high concentrations occurred during a number of different wind directions, suggesting there are a number of different sources.

There have been no days when daily $PM_{2.5}$ concentrations were higher than 25 $\mu g/m^3$ during 2019.

7.2 Dog Control Annual Report 2018 / 2019

Author: Debbie Fortuin, Environmental Compliance Manager

Authoriser: Tracy Tierney, Group Manager Environmental Services

Recommendation

That the Dog Control Report 2018/2019 be adopted and that, as required by the Act, the report be publicly notified and forwarded to the Secretary for Local Government.

Purpose of Report

1. The purpose of this report is to inform Council of dog control activities during the period 1 July 2018 to 30 June 2019.

Assessment of Significance

2. This matter is not deemed significant under the Council's Significance and Engagement Policy.

Background

3. Section 10A of the Dog Control Act 1996 (the Act) requires that Timaru District Council (TDC) provides specific information to the Secretary for Local Government by way of an annual report each financial year (within one month of the Council adopting this report). This report is provided to satisfy that requirement.

Discussion

- 4. The dog control data provided in this report is similar to previous years in most respects with two notable changes.
 - 4.1. Firstly, the number of infringements issued for failing to register a dog has dropped by 35 (27%). This is a reflection of work done in the previous three years by the animal control team to follow up and issue warnings if required. The cumulative effect has resulted in increased levels of compliance in the district.
 - 4.2. Secondly, the number of service requests for wandering dogs has increased by 96 (26%) complaints. A number of these complaints involved the same dogs frequently wandering. In some cases fencing orders were issued in an attempt to prevent the same dogs wandering. Where the dog owner did not comply with the fencing order, they were subsequently infringed for failure to comply with the Bylaw. This has resulted in an increase of 14 infringements issued for failing to comply with the Bylaw and also an increase of 17 infringements for dog not under control / dog wandering.
- 5. The report meets the reporting requirements of section 10A of the Act and it will be submitted to the Department of Internal Affairs (DIA) on 4 September 2019, once adopted by Council.
- 6. The following dog control data relates to the 12 month period ending 30 June 2019.

Annual Report to the Alcohol Regulatory and Licensing Authority

For the year 2018 - 2019

Date: 21 August 2019

Prepared by: Debbie Fortuin

Environmental Compliance Manager

Timaru District Council

Introduction

The purpose of this report is to inform the Alcohol Regulatory and Licensing Authority (the Authority) of the general activity and operation of the Timaru District Licensing Committee (DLC) for the year 2018 - 2019.

There are three DLC's operating in the South Canterbury area under a single Commissioner, this model having been adopted during the implementation of the Sale and Supply of Alcohol Act 2012 (the Act) in December of 2013. The three DLC's are that of the Timaru, Waimate and Mackenzie Districts.

This report will relate to the activities of all the DLC's in the body of the text and to the Timaru DLC alone in the Annual Return portion of the report at the rear of this document. This satisfies the requirements of the territorial authority set out in section 199 of the Act.

Overview of DLC Workload

DLC Structure and Personnel

The table below shows the current membership of the three DLC's under the Commissioner:

	Name	Role
Commissioner	Sharyn Cain	Deputy Mayor - Waimate District Council
Timaru DLC Members	Damon Odey	Deputy Chair, Mayor - Timaru District Council
	David Jack	Councillor - Timaru District Council
	Peter Burt	Councillor - Timaru District Council
Mackenzie DLC Members	Graham Smith	Mayor - Mackenzie District Council
	Chris Clarke	Councillor – Mackenzie District Council
Waimate DLC Members	Craig Rowley	Mayor - Waimate District Council
	Sheila Paul	Councillor – Waimate District Council

Total costs for the period amounted to \$16,145.24. This was made up of elected members allowances, travel costs, administration costs and solicitors fees, relating to the DLC.

In terms of Council staff delivering licensing services to the community and the DLC, there are 1.3 FTE licensing inspectors, a licensing administrator and the secretary to all three DLC's who is also the manager overseeing the activity.

Of note current staffing levels are at capacity given the number of applications processed, monitoring requirements, and enforcement functions they carry out across the three districts.

Hearings

There were no hearings during the reporting period for Timaru DLC.

Local Alcohol Policy

The Timaru, Mackenzie and Waimate District Councils jointly prepared and developed a Local Alcohol Policy (LAP), which came in to force on 24 March 2016.

The LAP was evaluated by the Timaru, Waimate, and Mackenzie District Councils in June 2017 and found to be performing well. The policy continues to function well and remains fit for purpose.

Statistical Information

Statistical information about the operation of the DLC for the year 2018 - 2019 is in the prescribed form and follows overleaf.

- Annual return
- Current listing of licenced premises.

Administrative Error

Due to an administrative error, five Club annual fees were not invoiced in 2017. These were invoiced during this financial year and payments were received.

9 Has your Council developed a Local Alcohol Policy?

Yes

Local Alcohol Policy

10 What stage is your Local Alcohol Policy at?

Adopted

11 Under your Local Alcohol Policy what are the maximum hours that apply for an on-license in the district?

Maximum hours - on licences:

7.00am - 3.00am

12 Under your Local Alcohol Policy what are the maximum hours that apply for an off-license in the district?

Maximum hours - off licences:

7.00am - 9.00pm

13 What effect do you consider your Local Alcohol Policy is having?

Local Alcohol Policy effect:

Initially there was a level of dissatisfaction from the licensee's and the public with regards to the reduction in hours for the Off Licence premises. However now that the policy has been in place for a while anecdotal feedback suggests that people have accepted the change and have adjusted their purchasing to work within the timeframe. There were also concerns raised by some rural licensees with regards to the off licence hours due to some contractor customers not finishing work until after 9.00pm in summer. Again, customers seem to have adapted well as this concern has not been on-going.
