

ACTION ON CLIMATE CHANGE

Timaru District Climate Change Strategy

Please join us at one or more public workshops to explore how, **together**, we can make our district more resilient as the impacts of climate change become more intense and widespread:

Topic	Date/time (Wednesdays)
Coastal inundation and erosion	18th January 2023 6-9pm
Domestic food resilience	8th February 2023 6-9pm
Lower emission transport	22nd February 2023 6-9pm
Water supply resilience	8th March 2023 6-9pm
Commercial food resilience	5th July 2023 6-9pm

Venue for all workshops: The South Canterbury Eco Centre, Redruth Street, Timaru (next to The Crow's Nest)

Places are limited, so if you plan to attend any of these public workshops, please register now with Eventbrite through Timaru District Council's webpage timaru.govt.nz/climatechange

These workshops will contribute to our development of the Timaru District Climate Change Strategy.

We welcome your input to support our facilitator Dr Phil Driver and our Advisory Group as we grapple with the big climate change challenges and opportunities in front of us.
