5. The Draft Growth Management Strategy seeks to provide a more focused approach to Rural Residential development, through focusing opportunities for rural residential and lifestyle allotments at specific zones peripheral to Timaru, Geraldine, Temuka and Pleasant Point, instead of the current dispersed approach throughout the Rural zone. How much do you agree or disagree with such an approach:

Please briefly explain the main reasons for your answer, or something else you'd like us to consider further:

I believe the Council should explore Rural Residential/Lifestyle development outside of the high value productive land on Orahi Station Road at Main North Road and utilize land that has a lower productive value but high aesthetic value. The Geraldine Downs already has rural Residential/Lifestyle development on the northern facing areas and further development managed correctly would have little visual impact on amenity and landscape values.
I would like the Council to consider in its current review to allow my lifestyle block of 22.0296 hectares which can currently be subdivided into two titles, to have provision to sub-divide into four separate lifestyle blocks of 5.5 ha.

My reason for this is that the land in question has many suitable building sites facing north with great views. These sites will have little or no impact on neighbouring properties. The land is unlikely to ever be a standalone productive farm unit.

There is a demand for lifestyle blocks around this size (5.5 ha).

The parcel of land in question was visited and reviewed by Ms Pfluger under plan 17 change who considered that up to four dwellings could be comfortably accommodated without having any noticeable impact on the environment.

I realize that until the water scheme is upgraded for the Geraldine Downs, that the extra two units required may not be available until then.

Yours faithfully,
